STATUTES OF CALIFORNIA

PASSED AT THE 1955 REGULAR SESSION OF THE LEGISLATURE

CHAPTER 1

An act to amend Section 18 of the Orange County Flood Control Act and to add Section 18.5 to said act, relating to the issuance of bonds and elections therefor and the disposition of the balance of proceeds of prior bond issue; and declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 13, 1955 Filed with
Secretary of State January 13, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 18 of the Orange County Flood Control Act is hereby amended to read:

Sec. 18. Whenever said board of supervisors shall by resolution passed by a vote of four-fifths of all its members determine that the public interest or necessity of said district demands the issuance of additional bonds for carrying out the work of flood control, or for any of the purposes of this act by said district, said board of supervisors may again proceed as in this act provided, and have a report made and submit to the qualified voters of said district the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all the above provisions of this act for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds. Additional bonds

SEC. 2. Section 18.5 is added to the Orange County Flood Control Act, to read:

Sec. 18.5. Whenever the said board of supervisors of said district determines by resolution that the expenditure of money raised by the sale of bonds for the purpose for which the bonds were voted is impracticable or unwise, it may call a special election to obtain the consent of the electors to use the money for any lawful purpose authorized by this act without specifying the particular purpose or purposes. Proceeds of previous bond issue

The procedure for the calling and holding of said election shall, so far as practicable, be the same as when the bond proposition was originally submitted, except that the provisions relating to the preparation, submission and approval of an engineer's report shall be inapplicable.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety Urgency

within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

The unprecedented growth and development of Orange County has created a serious flood control problem which threatens the public health and safety of the residents. Bond funds of the district are urgently needed to finance the construction of a comprehensive system of flood control and storm drain facilities for the preservation of the public health and safety of the residents. Under the present law, a two-thirds vote is required to carry a bond election. In addition, an election cannot be held until the proceeds of a prior bond issue have been expended. The Orange County Flood Control District presently has on hand a balance remaining from the proceeds of a prior bond election. It has been impossible to expend the balance of such funds because the completion of the projects for which said bonds were voted contemplated federal participation which has not materialized. At the same time, it would be illegal to expend said balance for any other purposes authorized by the act. Since the district is without power to call another bond election or to expend the balance of the previous bond issue for other district purposes under the present law, the immediate preservation of the public health and safety requires that the above mentioned limitations on the authorization of additional bonds be removed and that the board of supervisors of the district be empowered to submit to the electors the proposition of using the balance of the proceeds of the prior bond issue for other lawful district purposes, all by an act which takes effect immediately.

CHAPTER 2

An act to amend Sections 13, 14, 15, 17 and 18 of the Monterey County Flood Control and Water Conservation District Act (Chapter 699 of the Statutes of 1947), relating to the taxing powers, issuance of bonds, and financing for projects of the Monterey County Flood Control and Water Conservation District, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor January 14, 1955. Filed with
Secretary of State January 14, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 13 of the Monterey County Flood Control and Water Conservation District Act is amended to read:
Sec. 13. The board shall have power, in any year:

Taxes and
assessments

1. To levy ad valorem taxes or assessments upon all property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district, and

2. To levy taxes or assessments in each or any of said zones and participating zones to pay the costs and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones, by either of the following methods:

(a) By a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property;

(b) By a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon.

It is declared that for the purposes of any tax or assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

3. To levy taxes or assessments by either method authorized by subdivision 2 of this section, in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

In the event of project cooperation with any of the governmental bodies as authorized in subdivision 7 of Section 5 of this act, and the making of a contract with any such governmental body, for the purposes set forth in said subdivision 7, by the terms of which work is agreed to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by said contract it is agreed that the district is to pay to such governmental body a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after proceedings in the manner prescribed in Section 12 of this act, levy and collect a special tax or assessment upon the property in such zone or participating zones, whereby to raise funds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from said district taxes or assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions

of subdivision 2 or of subdivision 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

SEC. 2. Section 14 of said act is amended to read:

Bonds.

Sec. 14. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may, by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone or zones, in order to raise the amount of money necessary for each work or improvement and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the Office of the Recorder of Monterey County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

Election

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on such indebtedness and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. For the purposes of said election, said board shall, in said ordinance, establish special bond election precincts within the boundaries of each zone and participating

zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election. Maps

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published in a newspaper of general circulation, circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued. Notice

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. If at such election two-thirds ($\frac{2}{3}$) of the votes cast are in favor of incurring such bonded indebtedness, then bonds for such zone or participating zones for the amount stated in such proceedings shall be issued and sold as in this act provided. Two-thirds
vote

SEC. 3. Section 15 of said act is amended to read:

Sec. 15. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zones affected, and of the interest coupons attached thereto. Said bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid. Form, etc

The board may divide the principal amount of any issue into two or more series, and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may Series,
maturity
dates, etc

fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. Beginning with the date of the earliest maturity of each issue or series, not less than one-fortieth ($\frac{1}{40}$) of the indebtedness of such issue or series shall be paid every year. The final maturity date shall not exceed forty (40) years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denominations as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars (\$100), nor of a greater denomination than one thousand dollars (\$1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of five per centum (5%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of said district, and the seal of said district shall be affixed thereto by the clerk of the board. Either or both such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his printed, engraved, or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 4. Section 17 of said act is amended to read:

Payment

Sec. 17. Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual tax or assessment levied as provided in clause (a) or (b) of subdivision 2 of Section 13 of this act. No zone nor the property therein shall be liable for the share of bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessment in any of the several zones be used in payment of principal or interest or otherwise of the share of bonded indebtedness chargeable to any other zone.

SEC. 5. Section 18 of said act is amended to read:

Tax or
assessment
to pay
interest, etc.,
on bonds

Sec. 18. The board shall levy a tax or assessment each year in the zone or zones of issuance, sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such taxes or assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Monterey County to the credit of the zone of issuance, and be used for the payment of the principal and interest on said

bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the County Treasurer of Monterey County in the manner provided by law for the payment of principal and interest on bonds of said county.

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

The act governing this district, as now worded, requires a levy of taxes or assessments on both real and personal property in order to finance projects. However, since no California court decision as yet has authorized a levy on personal property to finance flood control and water conservation projects, it is impossible to obtain a legal opinion approving bonds of the district financed in part from levy on personal property. Bonds of the district cannot be traded in the open market or advantageously sold unless they are accompanied by such an opinion. The agricultural industry of the County of Monterey is faced with a desperate shortage of water, and in order to make bond funds available as soon as possible to prevent a further increase in the water shortage, with a resultant serious defect in the economy of Monterey County, it is necessary that this act take effect immediately.

CHAPTER 3

An act to amend Section 9102 of the Government Code, relating to legislative offices, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 21, 1955. Filed with
Secretary of State January 21, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 9102 of the Government Code is amended to read:

9102. The Senator having the management and control of the legislative office located in Los Angeles shall have the authority to employ one person in such office who shall hold a confidential position to him, and one other employee, and to fix their compensation at the grade and in the manner hereinafter provided with respect to employees in other legislative offices. The Senator having the management and control of each other legislative office shall have the authority to employ in such office one person holding a confidential position to such Senator, and to fix the compensation of such person at a grade not less than that of secretary-stenographer in civil service, subject to the provisions of Section 18004. There shall be no other employees.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to the large and rapidly increasing population of Los Angeles, and the consequent increase in the demands of the public for information and service on legislative matters, the existing facilities of the Los Angeles office are inadequate. In order to protect the right of the citizens of that area to petition this government and make their views known on pending legislation and protect the public peace, health or safety, it is necessary that this act take effect immediately.

10 days

9516. Every bill which has passed both houses of the Legislature, and has not been returned by the Governor within 10 days, thereby becoming a law, is authenticated by the Governor causing the fact to be certified thereon by the Secretary of State in the following form: "This bill having remained with the Governor 10 days (Sundays excepted), and the Legislature being in session, it has become a law this ----- day of -----, -----." The certificate shall be signed by the Secretary of State and deposited with the laws in his office.

Upon the receipt of such a bill and certificate, the Secretary of State shall assign a chapter number to the bill in the manner provided in Section 9510.

SEC. 4. Section 9605 of said code is amended to read:

Statutory
construction

9605. Where a section or part of a statute is amended, it is not to be considered as having been repealed and re-enacted in the amended form. The portions which are not altered are to be considered as having been the law from the time when they were enacted; the new provisions are to be considered as having been enacted at the time of the amendment; and the omitted portions are to be considered as having been repealed at the time of the amendment. When the same section or part of a statute is amended by two or more acts enacted

at the same session, any portion of an earlier one of such successive acts which is omitted from a subsequent act shall be deemed to have been omitted deliberately and any portion of a statute omitted by an earlier act which is restored in a subsequent act shall be deemed to have been restored deliberately.

In the absence of any express provision to the contrary, it shall be conclusively presumed that the statute last enacted is intended to prevail over earlier statutes enacted at the same session and, in the absence of any such provision, it shall be presumed that a statute having a higher chapter number was intended by the Legislature to prevail over a statute enacted at the same session but having a lower chapter number.

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

For many years the legislative process of this State has been based upon the premise that the law relating to the operation and effect of statutes was substantially as set forth in this act. A recent judicial decision has raised serious questions as to the extent to which this assumption regarding the status of the law is valid. In order that this Legislature may properly consider and act upon pending legislation at its 1955 Session it is necessary that the law on this subject be forthwith clarified and made certain. Further, it is also essential that the status of statutes enacted at previous sessions of the Legislature be immediately determined. The amendments made by this act, therefore, are not intended to constitute a change in, but are declaratory of, the existing law.

CHAPTER 6

An act to amend Section 262 of the Revenue and Taxation Code, relating to the church exemption, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 27, 1955. Filed with
Secretary of State January 27, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 262 of the Revenue and Taxation Code is amended to read:

262. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1952, 1953, or 1954 on property as to which the church exemption was available for such fiscal year shall be canceled pursuant to Article 1 of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously, and, if paid, a refund thereof shall be made pursuant to Article 1 of Chapter 5 of Part 9 of this division as if it had been erroneously collected.

No amount shall be canceled or refunded pursuant to this section unless the person or organization otherwise entitled to such cancellation or refund has first complied with the provisions of Section 32 of this code, relating to the loyalty declaration.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some churches have inadvertently failed to file the required affidavit in support of the tax exemption of their property which is granted by the State Constitution, and as a result now are confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the State as expressed in the Constitution will be entirely fulfilled and the State as a whole will benefit.

Same

SEC. 8. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Due to rapid expansion of population, particularly in the vicinity of defense plants, severe housing shortages exist. This bill will assist substantially in relieving such shortages, particularly in defense plant areas, and will contribute to national defense and stability, and it is essential that it take effect immediately.

CHAPTER 8

An act to add Sections 30093 and 30094 to the Water Code, relating to the inclusion of an irrigation district in a county water district, the authorizing of payments to retire bonds, and declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor January 28, 1955. Filed with
Secretary of State January 28, 1955]

The people of the State of California do enact as follows:

SECTION 1. Section 30093 is added to the Water Code, to read:

30093. In the event that a county water district has been formed under this division or any predecessor of it which district includes part or all of the land within an irrigation district the land shall not be released from any of the burdens, obligations or liabilities of the irrigation district in which it is situated because of its inclusion in the county water district, but shall continue to be in all respects a part of the irrigation district.

SEC. 2. Section 30094 is added to said code, to read:

30094. In the event that a county water district has been formed under this division or any predecessor of it which district includes part or all of the land within an irrigation district the board of directors of the county water district may agree with the board of directors of the irrigation district that the county water district shall take over, by grant, contract or otherwise in any manner all or part of the works and properties of the irrigation district which are used to serve the territory in both districts and are to continue to be so used. Any such agreement may provide for the county water district to assume all or part of the liabilities of the irrigation district. Whenever said works and properties so taken over were built from the proceeds of bonds, all or some of which are still outstanding, the county water district shall agree to pay the irrigation district in one sum or annually moneys which together with the other funds of the irrigation district will be sufficient to enable said irrigation district to meet principal and interest on said outstanding bonds; provided, however, that where less than all of the works and properties of an irrigation district are to be transferred, said agreement may specify the amount of money said county water district shall pay for bond retirement, which amount shall be as nearly as practicable in proportion to the historical cost, depreciated, of the works and properties taken over. Funds may be obtained by the county water district to make said bond retirement payments to said irrigation district in the manner provided for the payment of the principal and interest on its own bonds.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

County water districts have been formed and bonds voted to provide water supply and distribution systems. Within said county water districts has been included part or all of the land within irrigation districts. Difficulties resulting from two districts operating water systems in the same area make it difficult for the county water districts to issue bonds to finance water improvements necessary to the public health. Said projects are being held up until satisfactory legislation can be obtained. Therefore, to provide water facilities necessary for the public health at an early date it is necessary that this act take effect immediately.

CHAPTER 9

An act to amend Section 701 of the Unemployment Insurance Code, relating to the elective coverage of federal credit unions, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 28, 1955. Filed with
Secretary of State January 28, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 701 of the Unemployment Insurance Code is amended to read:

701. An employing unit, not otherwise subject to this division, which files with the director its written election to become an employer for not less than two calendar years, shall, with the written approval of the election by the director, become an employer subject to this part to the same extent as other employers as of the date stated in the approval. For the purposes of this section only the term employing unit shall also mean a credit union organized in accordance with the provisions of the Federal Credit Union Act, as amended.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is some question whether Section 701 of the Unemployment Insurance Code, which authorizes employing units which are not subject to the provisions of the Unemployment Insurance Code to elect to be covered under the unemployment insurance system, would permit an instrumentality of the United States Government, such as a credit union, organized and operating under federal law to so elect. This amendment would make it clear that such an instrumentality could elect to extend the coverage of the unemployment and disability insurance system to their employees. As numerous

federal credit unions are desirous of securing the benefits of such coverage for the calendar year 1955, and to avoid the possibility of requiring deductions to be made from the wages of employees for past periods, it is necessary that this act take effect immediately.

CHAPTER 10

An act to repeal Chapter 8 of Part 3, Division 3, Title 2 of, and to add Part 4 to Division 5 of Title 2 of the Government Code, relating to agreements for social security coverage of employees of public agencies, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor January 28, 1955. Filed with
Secretary of State January 28, 1955.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Chapter 8 of Part 3, Division 3, Title 2 of the Government Code is repealed.

SEC. 2. Part 4 is added to Division 5, Title 2 of the Government Code, to read:

Upon receiving evidence satisfactory to him that with respect to any such referendum the conditions specified in Section 218(d) of the Social Security Act have been met, and that the protection afforded employees in positions covered by the retirement system as to which such referendum has been had, as well as those receiving periodic benefits under such retirement system, will not be impaired as a result of making an agreement, bringing such employees under social security in accordance with the declared policy of the Congress set forth in Section 218(d) of the Social Security Act, the Governor shall so certify to the federal agency.

Exclusions

23027.5. Notwithstanding any other provision of this part, no employees of a public agency who are in positions covered by a retirement system or who are receiving periodic benefits under such retirement system shall be included in an agreement pursuant to this part where such inclusion will impair the protection afforded such employees by such retirement system, or where such protection has been impaired as a result of legislative enactment in anticipation of such inclusion.

Liability for contributions

23028. Every public agency included in the agreement between the board and the federal agency pursuant to the provisions of this chapter shall be liable for the contributions required of an employer under the provisions of Section 3111 of the Internal Revenue Code of 1954, and the portion required to be withheld from the salaries and wages of the employees as required under the provisions of Section 3101 of the Internal Revenue Code of 1954.

The board may designate other state offices and agencies to assist in the administration of the provisions of this chapter and may delegate to any such agency or office any of the powers and authority herein created in the board and may enter into interagency agreements covering any such services Delegation

23032. Contracts executed by the board pursuant to this chapter shall be excepted from the provisions of Section 13370 of this code, and of any other statutory provision which would otherwise require the approval of any such contract by any other state officer or agency. On and after July 1, 1955, the Board of Administration of the State Employees Retirement System shall succeed to and is hereby vested with all powers, duties, functions and jurisdiction of the Director of Finance vested in the director by Chapter 8 of Part 3, Division 3, Title 2 of this code and which powers, duties, functions and jurisdiction are continued in said Director of Finance until July 1, 1955, under the provisions of Part 4 of Division 5, Title 2 of this code. Board of Administration of State Employees' Retirement System

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Sweeping changes have been made in the Social Security Act during 1954, providing, among other matters, that public agencies in this State with retirement systems may now be covered by the old age and survivors insurance program of the Federal Government. Such agencies cannot be so covered unless and until the Government Code of this State is changed as herein provided, to conform with such changes in federal law. These amendments are necessary to allow such agencies to come under such federal program without making their participation retroactive, with all of the attending confusion. Great hardship will result to individuals employed by public agencies under retirement systems if their contributions are deducted retroactively over a period of several months instead of currently.

(b) This act shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions. Limitations

(c) Nothing contained herein shall be construed to render the creation of any city or district, or any change in the boundaries of any city or district, effective for purposes of assessment or taxation unless the statement, together with the map or plat, required to be filed under Sections 54900 to 54904, inclusive, of the Government Code, is filed within the time and substantially in the manner required by said sections.

(d) This act shall not operate to confirm, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal proceeding now pending and undetermined or which may be pending and undetermined during the period of 30 days from and after the effective date of this act, and shall not operate to confirm, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void or ineffective, or to confirm, validate or legalize the organization of, or any proceedings for the organization of any municipal corporation, when any part of the area of such municipal corporation within the boundaries thereof described in the resolution or order of the board of supervisors defining and establishing the boundaries of the proposed municipal corporation has been held by any court to be a part of another municipal corporation or has, directly or indirectly, been held illegally included within such boundaries of the proposed municipal corporation as described in said resolution or order of the board of supervisors or in the notice of election on the incorporation of the proposed municipal corporation.

SEC. 8. This act may be cited as the First Validating Act of 1955. Short title

SEC. 9. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of public bodies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of public bodies, and upon the validity of acts, proceedings, and bonds of public bodies, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the State can be afforded the protection of the police, fire, safety, sanitary and other regulations and protections provided by public bodies;

(2) Public works and construction by public bodies can be commenced and continued without delay or restriction, to provide sewers, water works, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety, and immediately needed to provide for an increased population;

(3) Public bodies can issue and sell bonds heretofore authorized for the purpose of providing sewers, water works, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some public body or in the authorization of such bonds, which defects will be cured by this act.

CHAPTER 12

An act to amend Section 24955 of the Water Code, relating to payment of interest on bonds of irrigation districts and declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor January 28, 1955. Filed with
Secretary of State January 28, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 24955 of the Water Code is amended to read:

24955. The estimate may include a sum sufficient to pay the interest on the proposed construction bonds for four years or less.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such a necessity is as follows:

That demands of an ever increasing population require the rapid development of the water and power resources of this State. A number of irrigation districts have such developments under way and will be issuing revenue bonds to finance the same and some need to do so prior to the time that laws passed in the 1955 session would ordinarily become effective. These projects are of such magnitude that a longer period than three years is required for construction of the same and it is therefore necessary to provide for payment of interest for a longer period than three years. The success or failure of such projects depends upon the legal authority to pay interest during a construction period of longer than three years from funds derived from the sale of bonds.

CHAPTER 13

An act to add Section 4946.1 to the Education Code, relating to unified school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor January 28, 1955. Filed with
Secretary of State January 28, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 4946.1 is added to the Education Code, to read:

4946.1. If a unified district governed by a board of education of five members includes a chartered city, the charter of which provides for a board of education, the members of which are to be elected pursuant to this code and to hold office for the terms provided by this code, and three members of such board of education were elected to hold office for a term expiring during the school year commencing on the date the district was formed for all purposes, the office of three members of the board of education shall be filled at the first election of governing board members following such date of formation for all purposes.

The term of office of such three members shall be determined by lot. The term of one member shall expire on June 30th of the year following his election; the term of one member shall expire on June 30th of the third year following his election; and the term of one member shall expire on June 30th of the fourth year following his election. The persons elected to succeed such three members shall hold office for four years.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The existing law relating to unified school districts provides for the situation in which one or two offices are to be filled at the first election held after the formation of a new unified

district, but there is no provision for the situation in which three offices must be filled at the first election. Therefore when a newly formed unified district includes a chartered city and is governed by a city board of education, and the terms of three members expire during such first year of formation, and the charter of such city makes applicable the provisions of the Education Code with respect to the election and terms of the members of such board of education, the existing law provides for the filling of only two of the three offices. In order that the board of education of such districts may be properly constituted with the five members as required by law, it is necessary that this law take effect immediately.

CHAPTER 14

An act to add Section 18155 to the Education Code, relating to school buildings, and making an appropriation therefor, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor January 28, 1955. Filed with
Secretary of State January 28, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 18155 is added to the Education Code, to read:

18155. The State Allocation Board may allocate any funds appropriated therefor to a school district for the necessary repair of a building to be used as a temporary school building because the regular school building of the district has been damaged or destroyed by fire or other causes after January 11, 1955, and before January 30, 1955, if the school building so damaged or destroyed was the only school building of the district. Any money allocated pursuant to this section shall be repaid in full by the district to the General Fund, plus interest as determined by the State Allocation Board, within two years after the making of the allocation. The school district may repay such money from the proceeds of any district bonds issued after the receipt of such allocation.

SEC. 2. The sum of two thousand six hundred dollars (\$2,600) is hereby appropriated from the General Fund to the State Allocation Board for allocation pursuant to Section 18155 of the Education Code.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The only school building of a school district has been completely destroyed by fire and the only available building for use as a temporary school building is in need of repairs before it can be so used. The school district does not have and is unable to raise sufficient funds for such repairs in the short

time necessary to make the building usable for the present school term. It is essential to the public welfare of the State to provide facilities for the education of the children and it is therefore necessary that this act take effect immediately.

CHAPTER 15

An act to amend Section 828.83 of the Agricultural Code, relating to citrus fruit, declaring the urgency of this act, to take effect immediately.

[Approved by Governor March 22, 1955. Filed with Secretary of State March 22, 1955]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 828.83 of the Agricultural Code is amended to read:

828.83.

			Citrus fruit containers
53	Standard two-compartment orange or grapefruit box, each compartment to be-----	11½	11½
54	Standard one-compartment orange or grapefruit box-----	11½	11½
55	Standard two-compartment half orange or grapefruit box, each compartment to be-----	5¾	11½
56	Standard two-compartment lemon box, each compartment to be -----	9⅞	13
57	Standard two-compartment half lemon box, each compart- ment to be-----	4½	13
58	Standard one-half orange, grape- fruit or lemon box-----	10½	10½

To allow for reasonable variations in the size of container number 58 by reason of manufacturing variations, atmospheric conditions and other factors affecting the size of such containers, the following tolerances from the foregoing dimensions shall be permitted:

A variation of plus or minus of one-eighth of an inch in any of two of the dimensions, height, width, or length. Notwithstanding this tolerance the net cubical contents of container number 58 shall not be less than 1,800 cubic inches.

Until July 1, 1956, the one-half orange, grapefruit or lemon box number 58 shall be considered standard when measuring 9¾ to 10½ inches in depth, 11 inches in width and 16¾ inches in length, all inside measurements.

To allow for reasonable variations in the size of packing containers by reason of manufacturing variations, atmospheric

conditions and other factors affecting the size of such containers, the following tolerances from the foregoing dimensions are hereby permitted:

The total inside length of the two compartments of the standard two-compartment orange or grapefruit box, or the standard two-compartment half orange or grapefruit box, shall not be less than $23\frac{1}{8}$ inches nor more than $24\frac{1}{8}$ inches;

The total inside length of the standard one-compartment orange or grapefruit box shall not be less than $23\frac{7}{8}$ inches nor more than $24\frac{1}{8}$ inches;

The total inside length of the two compartments of the standard two-compartment lemon box, or the standard two-compartment half lemon box, shall not be less than $24\frac{1}{8}$ inches nor more than $25\frac{1}{8}$ inches;

If made of wood, tolerance of one-eighth of an inch is hereby permitted in width or depth of any of said standard containers "across the grain" of the wood used in the manufacture thereof, over or under the sizes above specified, and a tolerance of one thirty-second of an inch over or under such sizes in width or depth "with the grain."

The lids for the above standard orange or grapefruit boxes numbers 53, 54 and 55 shall not exceed $26\frac{1}{8}$ inches in length, and for the above standard lemon boxes numbers 56 and 57 shall not exceed $27\frac{1}{8}$ inches in length.

Standard container number 58 shall be considered standard with interior parts such as liners, cleats, posts, or other similar parts, extending from the corners and partially covering the sides or ends or both, providing (1) the net cubical contents are not less than 1,800 cubic inches with interior parts in place, and (2) the actual dimensions conform to the specifications in this section when the inside width is measured from the center of the side panels and the inside length from the center of the end panels, both without allowance for any bulge and also with interior parts in place.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A new packing season for citrus fruits will begin in the month of May. It is essential to the protection of the consuming public from fraud and deception that the citrus industry be permitted to use standard container number 58 of new dimensions throughout the entire packing season in order to establish acceptance in the market for California citrus packed in this new container. Unless this act goes into effect immediately, the citrus industry will not be permitted to use standard container number 58 until midway through the packing season.

CHAPTER 16

An act to amend Section 71343 of the Government Code, relating to jury trials in municipal courts, and declaring the urgency thereof.

[Approved by Governor March 24, 1955. Filed with
Secretary of State March 24, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 71343 of the Government Code is amended to read:

71343. In any judicial district containing a city of the first and one-half class in which a municipal court is established and where a session of the court is held at a place more than 10 miles from the principal office of the court, a majority of the judges of the court may establish an area surrounding the place where such session is being held comprising a population of at least 10,000, from which trial jurors for such session of the court shall be selected.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 71343 now permits the selection of trial jurors from the areas surrounding branch municipal courts in cases where such courts are located more than 20 miles from the principal office of the courts. It does not permit the selection of such jurors from areas surrounding branch courts which are located less than that distance from the principal office although there are several branch courts located less than 20 but more than 10 miles therefrom which would have as great a problem in obtaining competent jurors as would courts more distantly located. At present, no branch courts in such judicial district hold jury trials but the judges of the district are contemplating the immediate commencement of such practice. It is urgently necessary therefore that the amendment to Section 71343 take effect immediately.

CHAPTER 17

An act to amend Section 1743 of the Harbors and Navigation Code, relating to the Board of State Harbor Commissioners for San Francisco Harbor, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 26, 1955. Filed with
Secretary of State March 26, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1743 of the Harbors and Navigation Code is amended to read:

1743 A person shall not be appointed or employed by virtue of this part who is interested in any vessel sailing or plying in and out of or on the inland waters of the Bay of San Francisco, as owner, mortgagee, or otherwise, or as a stockholder in any company owning such vessels, or who is a consignee, the general or freight agent or manager of any such vessel, or agent or other employee of the owner of any such vessels, or who is engaged in the business of marine insurance, or of procuring such insurance, or who is engaged as a stevedore, in loading and discharging such vessels.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The San Francisco Harbor is one of the main vital arteries of commerce for our State and its smooth operation is unquestionably necessary for the public health and well-being of our people. However, at the present time there is a vacant position of port manager as the executive officer of the Board of State Harbor Commissioners for San Francisco Harbor. While the selection of the best qualified person from anywhere in the United States to fill the vacancy is essential for the proper management of the harbor, Section 1743 of the Harbors and Navigation Code prevents such selection. In order that such selection could be made as soon as possible and thereby better preserve the public health, safety, and welfare, it is necessary that this act take effect immediately.

CHAPTER 18

An act to amend Sections 796.1, 796.2, and 796.9 of the Agricultural Code, relating to citrus fruit.

In effect
September
7, 1955

[Approved by Governor March 30, 1955. Filed with
Secretary of State March 30, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 796.1 of the Agricultural Code is amended to read:

Unlawful
citrus fruit
mixtures

796.1. It shall be unlawful to mix or blend any citrus fruits which fail to conform to the requirements of this chapter with other citrus fruits which conform to such requirements for the purpose of selling, marketing, or transporting the fruit which has thus failed to conform to the requirements of this chapter.

Rot or
mold

Any packed citrus fruit which has been in storage or after being shipped fails to meet the requirements of the standards for citrus fruits established in this chapter only by reason of brown rot, blue mold, or green mold which has occurred after

packing, shall not be held for violation of the provisions of this chapter on account of such deterioration.

Oranges (except tangerines and mandarins), grapefruit, and lemons when packed in containers holding more than 25 pounds shall be regularly packed throughout in standard containers as provided and designated for each such citrus fruit in Section 828.83; provided, however, that packed citrus fruit imported into this State from another state need not be packed in said containers if they are packed in containers conforming to the applicable laws or regulations of the state of origin or of the United States.

All containers of packed citrus fruits when packed in containers holding more than 25 pounds and when loose or packed in a standard container number 58 which is closed shall bear upon them in plain sight and in plainly legible letters on one outside end: the name of the packer thereof together with a sufficiently explicit address to permit ready location of such packer; in the case of oranges (except tangerines and mandarins), grapefruit, and lemons the number and average diameter of the citrus fruit in the container; in the case of oranges and grapefruit the name of the variety, if known, and when not known, the words "unknown variety" or "seedlings"; provided, however, that in the case of citrus fruit imported from another state the average diameter of the fruit in the container need not be shown and in the case of a standard container number 58 which is not closed, the marking requirements of this section need not be shown.

Standard container number 58, containing loose or packed oranges, grapefruit or lemons in addition to being marked with the actual count and average diameter of the fruit in the container as required by this section, may be marked with the corresponding size in terms of the count that such fruits would pack in full-size standard containers as listed in Section 796.3 for oranges, in Section 796.4 for grapefruit and in Section 796.5 for lemons. The number indicating such "count size," if marked on the container, shall be accompanied by the term "size" so as to clearly refer to size, and both shall be in figures and letters no larger in size than the actual count marked on the container. If the "count size" is marked on the container, it must be placed near the statement of contents and the actual count figure must be accompanied by the term "count" so as to clearly refer to the count.

SEC. 2. Section 796.2 of said code is amended to read:

796.2. All oranges (except tangerines and mandarins), grapefruit or lemons intended for shipment out of the State of California, before being so shipped, shall be regularly packed throughout in lidded standard containers, as specified in this code for such fruit, and shall be uniform in size.

The provisions of this section shall not apply to (1) the sale, marketing or transportation for sale or marketing of oranges, grapefruit or lemons for charitable purposes, unemployment relief or for use by the United States Government or its

agencies for relief distribution, or (2) the sale, marketing or transportation for sale or marketing of oranges, grapefruit or lemons in closed containers intended for sale to the consumer in their unbroken form and the net contents of which do not exceed 25 pounds.

Oranges, grapefruit and lemons intended for shipment out of the State of California in standard container number 58 need not be regularly packed throughout the container but such container shall be closed.

Definitions

SEC. 3. Section 796.9 of said code is amended to read:

796.9. As applied to citrus fruits:

(a) "Diameter" means the diameter measurement taken at the widest portion of cross section, at a right angle to a straight line drawn from the stem end to the distal end thereof.

(b) "Regularly packed throughout" means that the individual fruits shall be packed in the container in straight rows.

(c) "Uniform in size" means that none of the fruit in any one container may be more than 15 percent larger or smaller in diameter than the average diameter of the fruit in the container.

(d) "Closed" when applied to standard container number 58 means that the container shall be completely closed by material of a similar quality to the adjoining portion of the box. Nothing in this paragraph applying to standard container number 58 shall prevent the use of ventilation openings and handhold openings so constructed that they are not large enough for removal of any part of the contents.

CHAPTER 19

In effect
September
7, 1955

The people of the State of California do enact as follows:

The attendance officer, any peace officer, or any school officer, shall arrest, during school hours, without warrant, any child between 8 and 16 years of age, found away from his home and who has been reported to him by the teacher, the superintendent of schools, or other person connected with the school department or schools as a truant from instruction upon which he is lawfully required to attend, within the county, city, or city and county, or school district.

SECTION 1. Section 1013.5 of the Civil Code is amended to read:

1013.5. (a) When any person, acting in good faith and erroneously believing because of a mistake either of law or fact that he has a right to do so, affixes improvements to the land of another, such person, or his successor in interest, shall have the right to remove such improvements upon payment, as their interests shall appear, to the owner of the land, and any other person having any interest therein who acquired such interest for value after the commencement of the work of improvement and in reliance thereon, of all their damages proximately resulting from the affixing and removal of such improvements.

(b) In any action brought to enforce such right the owner of the land and encumbrancers of record shall be named as defendants, a notice of pendency of action shall be recorded before trial, and the owner of the land shall recover his costs of suit and a reasonable attorney's fee to be fixed by the court.

(c) If it appears to the court that the total amount of damages cannot readily be ascertained prior to the removal of the improvements, or that it is otherwise in the interests of justice, the court may order an interlocutory judgment authorizing the removal of the improvements upon condition precedent that the plaintiff pay into court the estimated total damages, as found by the court or as stipulated.

(d) If the court finds that the holder of any lien upon the property acquired his lien in good faith and for value after the commencement of the work of improvement and in reliance thereon, or that as a result of the making or affixing of the improvements there is any lien against the property under Article XX, Section 15, of the Constitution of this State, judgment authorizing removal, final or interlocutory, shall not be given unless the holder of each such lien shall

have consented to the removal of the improvements. Such consent shall be in writing and shall be filed with the court.

This section shall not be construed to affect or qualify the law as it existed prior to the 1953 amendment of this section with regard to the circumstances under which a court of equity will refuse to compel removal of an encroachment.

The weighing may be done either by means of portable or stationary scales and such officer may require that such vehicle be driven to the nearest scale facility, in the event such scales are within five miles.

(b) Whenever a traffic officer upon inspecting, measuring or weighing a vehicle and load as above provided determines that the vehicle is not safely loaded or that the height, width, length or weight is unlawful, such officer may require the driver to stop in a suitable place and reload or remove such portion of the load as may be necessary to render the load safe or to reduce the said load to those limits permitted under this code. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator.

Secretary of State April 4, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 512 of the Vehicle Code is amended to read:

Speed
limits
Construction
zone

512. Speed Limit on Highways Where Persons Are at Work. It shall be prima facie a violation of the basic rule declared in Section 510 of this code for any person to operate a vehicle at a speed greater than 25 miles per hour upon any portion of a highway where officers or employees of the agency having jurisdiction of the same, or any contractor of such agency or his employees, are at work on the roadway or within the right of way so close thereto as to be endangered by passing traffic. The provisions of this section shall apply only when appropriate signs, indicating the limits of the restricted zone, and the speed limit applicable therein, are placed by such agency within 400 feet of each end of such zone. Such signs shall display the figures "25" as provided in Section 468 and shall indicate the purpose of the speed restriction, but otherwise need not comply with the details set forth in Section 468. Nothing in this section shall be deemed to relieve any operator of a vehicle from complying with the provisions of Section 510.

SEC. 2. Section 512.2 of said code is amended to read:

Snow
conditions

512.2. Speed Restrictions Because of Snow Conditions. Whenever the State Department of Public Works in respect to state highways or a local authority with respect to highways under its jurisdiction finds that, by reason of snow or ice conditions, a speed in excess of 25 miles per hour is more than is reasonable and safe upon a highway or any portion thereof, the department or local authority, as the case may be, may erect appropriate signs in such highway or portion thereof indicating a speed limit of 25 miles per hour. Such signs may be placed and removed as snow or ice conditions vary. When such signs are in place, the prima facie speed limit on any portion of such highway so signposted shall be 25 miles per hour and the burden of proving that a speed in excess of 25 miles per hour is not in violation of Section 510 shall be on the driver.

SEC. 3. Section 516 of said code is amended to read:

Bridges and
structures

516. Speed on Bridges and Structures. (a) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or other elevated structure.

(b) The State Department of Public Works may, in the manner hereinafter provided, determine the maximum speed, not less than five miles per hour, which can be maintained with safety to any bridge or other elevated structure on a state highway. Said department may also make such determination with reference to any other street or highway upon receiving a request therefor from the board of supervisors or road commissioner of the county, the governing body of the city, or other agency or person, having jurisdiction over such bridge or other elevated structure.

(c) Any local authority may, in the manner hereinafter provided, determine the maximum speed, not less than five miles per hour, which can be maintained with safety to any bridge or other elevated structure under its jurisdiction, or may request the State Department of Public Works to make such determination.

(d) The Department of Public Works or local authority making a determination of the maximum safe speed upon a bridge or elevated structure shall first make an engineering investigation and shall hold a public hearing

Notice of the time and place of said public hearing shall be posted upon such bridge or elevated structure at least five days before the date fixed for such hearing. Upon the basis of said investigation and all evidence presented at said hearing, said department or local authority shall determine by order in writing the maximum speed which can be maintained with safety to such bridge or other elevated structure. Thereupon, the authority having jurisdiction over such bridge or other structure shall erect and maintain suitable signs specifying the maximum speed so determined at a distance of not more than 500 feet from each end of such bridge or other elevated structure or any approach thereto.

(e) Upon the trial of any person charged with a violation of this section, proof of said determination of the maximum speed by said department or local authority and the existence of said signs shall constitute prima facie evidence of the maximum speed which can be maintained with safety to such bridge or other elevated structure.

(f) All of the provisions of this section shall likewise apply with respect to the maximum speed within any tube or tunnel constituting a part of a highway

CHAPTER 76

work, or to emergency construction of public highways with funds apportioned by the Government of the United States, shall be performed as required under acts of Congress and the rules and regulations promulgated thereunder. Laws of this State inconsistent with such laws, or rules and regulations of the United States, shall not apply to such work, to the extent of such inconsistency. This further re-enactment of this section is for the purpose of bringing the assent of the State of California to the provisions of the applicable federal statutes up to the effective date of this amendment.

820.5. The department may enter into agreements with authorized officials of the United States for the performance of street or highway construction, improvement, or maintenance projects, including the acquisition of necessary rights of way therefor, for military, naval, access and tactical highways, including highways providing access to timber or other natural resources, regardless of whether or not such highways are on the State Highway System. As to any project not on the State Highway System, such agreement must provide for full reimbursement to the department, except for general administrative and administrative engineering expenses.

Agreements
for military,
etc.,
highways

As to any such street or highway, the department and the California Highway Commission are, and each of them is, authorized to do any and all things in connection therewith as may be done with reference to the state highways. The commission may adopt resolutions authorizing condemnation of property necessary for such highways with like effect as it may with reference to state highways. All provisions of this article shall apply to any work done by the department under any such agreement.

If desired by the United States, title to any real property or interest therein acquired by the department in connection with any such street or highway which is not a part of the State Highway System may be transferred to the United States or any agency thereof by a conveyance executed on behalf of the State of California by the Director of Public Works. Such conveyance shall only be made in the event the State has been fully reimbursed for any expenditures made in connection with the acquisition of such property or interest therein. Upon completion of the construction of any such highway which is not a state highway, it shall forthwith be turned over to the United States for maintenance and control, if the United States will accept the same. If the United States will not accept the maintenance and control thereof, such highway shall become a city street or county highway, as the case may be, upon the passage by the commission of a resolution to that effect.

Transfer of
property

The department may enter into like agreements with authorized officials of the United States to furnish other engineering services, such as laboratory services, upon the condition that the State shall be reimbursed in full therefor.

Engineering
services

statement,
plans, etc

821. The department, on behalf of the State, shall submit to the Secretary of Agriculture, or other properly authorized officer of the United States, such project statements as may be required and may agree with the proper officials of the United States as to the kind, quality, and extent of all such work. The department shall file in its office all approved plans, specifications, and estimates.

Depart-
mental
authority

822. The department is authorized to do any and all acts and things with reference to any military or public street or highway in, or to be constructed in, this State necessary to the performance of any such agreement, including but not limited to the construction or improvement of streets, highways or roads which are not a part of the State Highway System.

822.5. Agreements are authorized between the department and any county, or counties, or city, or cities, providing for the acquisition of property for, the construction, improvement and maintenance of any highway, including those not in the State Highway System, and those lying partly within and partly without the boundaries of the State, to be constructed with federal aid. The department may, when authorized by any such written agreement, acquire for the county or city, as the case may be, any real property within the State required for any such highway which is not in the State Highway System.

Appropri-
ation for
cooperative
projects

823. In addition to the purposes for which the moneys in, and to be received in, the State Highway Fund and the State Highway General Fund have been appropriated, all of said moneys, or so much thereof as may be necessary, is hereby appropriated to, and may be expended by the department for, the performance of such street or highway construction or improvement projects as are agreed upon with the properly authorized officers of the United States, including projects on public or military highways in the State of California which are not a part of the State Highway System. As to such projects on streets or highways which are not a part of the State Highway System, such expenditures shall be limited to those items for which the Government of the United States has agreed, and is obligated, to reimburse the State in full, except that the general administrative engineering expense for which the Federal Government will not repay the State is properly chargeable to the general administration of the Division of Highways.

Maintenance
of highways
not part of
system

823.5. The department may maintain any street or highway which is not a part of the State Highway System whenever all of the following facts exist:

(a) The department has performed upon such street or highway a construction or improvement project;

(b) Such project was financed in whole or in part by moneys contributed by the Government of the United States;

(c) The governmental agency having jurisdiction over such street or highway has agreed either with the State of Cali-

fornia, acting by and through the department, or with the United States to maintain such street or highway to the satisfaction of the authorized agents of the United States; and

(d) Such governmental agency has failed to so maintain such street or highway, and the authorized agents of the United States have demanded of the department that such street or highway be maintained in accordance with such agreement.

The department shall carefully segregate all items of cost of such maintenance, including not to exceed 10 percent for overhead and administration. In the event the governmental agency having jurisdiction over such street or highway is a county, or a city and county, the director shall notify the State Controller of the expenditures by the department on such street or highway. The State Controller thereupon shall deduct from the succeeding quarterly apportionments to said county from the Motor Vehicle Fuel Fund the amount certified by the director and shall place said amount in the State Highway Fund.

In the event the governmental agency having jurisdiction over such street or highway is a city, the department shall charge such expenditure against the moneys to be allocated for expenditure in said city under Section 194 of this code.

824. Expenditures made from the State Highway Fund or the State Highway General Fund to the extent to which the United States is obligated by a project agreement to reimburse the State, shall be considered as advancements made by this State for performance on behalf of the United States, and shall not be considered as expenditures of state funds. Such advancements are not subject to any provisions of law relative to allocation of State Highway Fund, or State Highway General Fund moneys. Such advancements must be excluded in making the computations required by Section 11274 of the Government Code and the amount of such advancements made and to be so excluded during any given period of time shall be deemed to be equal to the amount received from the Government of the United States as reimbursement for street or highway projects and deposited in the State Treasury during said period of time.

825 The total of the funds available from the Federal Government and the State for construction or improvement of state highways by the State shall be apportioned between the two county groups in accordance with the provisions of Section 188. Where more projects are available which are eligible for expenditure of federal funds in one county group than in the other, state funds shall be allocated to the county group receiving the lesser expenditure of federal funds to so balance such total expenditures.

826. All moneys received from the Government of the United States as reimbursement for street or highway construction projects shall be deposited in the State Treasury to the credit of the fund from which the advancements were

made. The department shall certify to the State Treasurer the fund in which each payment is required to be deposited, or, if any one payment represents advancements from both the State Highway Fund and the State Highway General Fund, the amount which should be deposited in each.

Contract
specifi-
cations
Forfeiture

827. The department may insert in the specifications for any contract for any project as to which a project agreement has been executed by and between the State and the United States a stipulation that the contractor shall forfeit to the State the sum of ten dollars (\$10) for each calendar day, or portion thereof, for each person who is employed upon the project in violation of the specifications relating to selection of labor, wages, hours, and conditions of employment, and the contractor shall be bound thereby.

Federal
requirements

The department may insert in the specifications for any such contract all special provisions required by the rules and regulations of the properly authorized officers of the United States, regardless of whether or not any such provision tends to increase the cost of the work.

Legislative
intent

828. The provisions of this article and of Sections 180 and 181, as added by the Legislature at its 1955 Regular Session, are not to be considered a change in existing law, but merely a continuation thereof. SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A great increase in the number of trailer parks and trailer coaches throughout the State and a change in their use from temporary to permanent occupancy requires that the law regulating these occupancies be amended during this session of the Legislature. The great development in number and the change of nature of occupancy has produced potential hazards to health and safety, particularly with respect to the plumbing and wiring of trailer coaches and trailer parks. For proper amendment it is necessary to divide the present law into two separate acts as Part 2, Division 13 of the Health and Safety Code now regulates auto courts, resorts and motels as well as trailer parks, and many sections of this law are applicable to both auto courts and trailer parks. Upon enactment of this act it is desired to enact at this session of the Legislature amended, separate acts regulating trailer parks and auto courts. This act

merely divides the law into separate acts without making any substantial change.

Legislative
declarations

For the Fiscal Year 1955-1956, but for no other fiscal year, notwithstanding Section 20 of this act, the assessment and equalization of property for the purpose of district taxation shall be effected as provided in this section.

1955-1956
assessments

Assessments of the district for the Fiscal Year 1955-1956 are liens on the property the same as if they were county taxes, except that the district assessment liens attach as of noon on the day after this act becomes effective.

Liens

It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the Fiscal Year 1955-1956 are the correct assessments for purposes of assessment by the district and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and collecting the assessments for the district. If the ownership or taxable situs or value of any property changes between noon on the first Monday in March, 1955, and the date on which attaches the lien for assessments of the district for the Fiscal Year 1955-1956, then, on petition of the taxpayer affected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of assessment by the district.

Assessment
presumption

In equalizing the assessments made by the county assessor, the Board of Supervisors of Del Norte County, sitting as the county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of

Equalization
of assess-
ments

assessment by the district in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

Failure to
seek change

If, for purposes of assessments by the district, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes, is conclusively presumed to be the correct assessment for assessment purposes of the district.

Necessary
procedure

The board may, by ordinance, prescribe any necessary procedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying, and collecting taxes or assessments for the district for the Fiscal Year 1955-1956. Except as provided in this section, Section 20 of this act is applicable to the assessment and equalization of property for the purpose of district assessments for the Fiscal Year 1955-1956.

Bonds as
legal
investments

SEC. 22. The bonds of the district issued for any zone, sub-zone, or zones thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds of said district issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any act, such bonds of said district may be so used.

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained, and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

Bonds
exempt
from tax

SEC. 23. All bonds issued by said district under the provisions of this act shall be free and exempt from all taxation within the State of California. It is hereby declared that the district organized by this act is a reclamation district and an irrigation district within the meaning of Section 1 $\frac{1}{2}$, Article XIII, of the Constitution of this State.

SEC. 24. All contracts for any improvement or unit of work when the cost thereof according to the estimate of the engineer, will exceed two thousand dollars (\$2,000), shall be let to the lowest responsible bidder or bidders therefor in the manner hereinafter provided. The board shall first determine whether such contract shall be let as a single unit for the whole of the work, or shall be divided into severable convenient parts, or both, according to the best interests of the district. The board shall make call for bids and advertise such

Bids

call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. Such call for bids shall state whether such work is to be performed as a unit for the whole thereof or shall be divided into severable convenient specific parts, or both, as stated in the call. The board may let such work by single contract for the whole thereof as a unit or it may divide such work into severable convenient parts by separate contracts, as stated in such call, according to the best interests of the district. The board shall require the successful bidder or bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Chapter 3 of Division 5 of Title 1 of the Government Code and to be subject to the provisions of that chapter. The board shall also have the right to reject any and all bids. In the event all proposals are rejected or no proposals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of two thousand dollars (\$2,000), or the work consists of channel protection, or maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may without advertising for bids therefor have said work done by force account. The district shall have the power to purchase in the open market without advertising for bids therefor, materials and supplies for use in any work therewith either under contract or by force account.

SEC. 25. Any improvement for which bonds are voted under the provisions of this act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, as above specified, unless the doing of any of such work described in said report, shall be prohibited by law, or be rendered contrary to the best interests of the district by some change of conditions in relation thereto, in which event the board of supervisors may order necessary changes made in such proposed work or improvements and may cause any plans and specifications to be made and adopted therefor.

SEC. 26. Whenever bonds have been authorized by any zone, subzone, or participating zone of said district and the proceeds of the sale thereof have been expended as in this act authorized, and the board shall by resolution determine that additional bonds should be issued for carrying out the work of flood control, or for any of the purposes of this act, the board may again proceed as in this act provided, and submit to the qualified voters of said zone, subzone, or participating zone, the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all the

above provisions of this act for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds.

Insufficient
votes

SEC. 27. Should a proposition for issuing bonds for any zone, subzone, or participating zones submitted at any election under this act fail to receive the requisite number of votes of the qualified electors voting at such election to incur the indebtedness for the purpose specified, the board shall not for six months after such election call or order another election in such zone, subzone, or participating zone for incurring indebtedness and issuing bonds under the terms of this act for the same objects and purposes.

Effect of
repeal or
amendment

SEC. 28. The repeal or amendment of this act shall not in any way affect or release any of the property in said district or any zone or subzone thereof from the obligations of any outstanding bonds or indebtedness until all such bonds and outstanding indebtedness have been fully paid and discharged.

Grant of
right of way

SEC. 29. There is hereby granted to Del Norte County Flood Control District the right of way for the location, construction and maintenance of flood control channels, ditches, waterways, conduits, canals, storm dikes, embankments, and protective works in, over and across public lands of the State of California, not otherwise disposed of or in use, not in any case exceeding in length or with that which is necessary for the construction of such works and adjuncts or for the protection thereof. Whenever any selection of a right of way for such works or adjuncts thereto is made by the district the board thereof must transmit to the State Lands Commission, the Controller of the State and the recorder of the county in which the selected lands are situated, a plat of the lands so selected, giving the extent thereof and the uses for which the same is claimed or desired, duly verified to be correct. If the State Lands Commission shall approve the selections so made it shall endorse its approval upon the plat and issue to the district a permit to use such right of way and lands.

Relocation
of streets,
roads, etc

SEC. 30. If by any agreement or judgment in condemnation the district shall be required to relocate any street, road, highway, railroad, canal or other property subject or devoted to public use, the board shall have power to acquire in the name of the district, by agreement or condemnation, all rights of way and other property necessary or proper for compliance with said agreement or said judgment of condemnation and thereafter to make such conveyance of such relocated street, road, highway, railroad, canal, or other property as may be proper to comply with said agreement or judgment. SEC. 31. Claims shall be presented in the general form and manner prescribed by general law relating to the making and filing of claims against counties. Such claims may be amended within said six months to correct defects in form or statement of facts. No action against the district shall be commenced or maintained unless such claim relating thereto has been filed as hereinabove prescribed and action thereon commenced within one year after the cause of action arose.

7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 68084 of the Government Code is amended to read:

68084. When any money is deposited with the clerk or judge of any court pursuant to any action or proceeding in the court, or pursuant to any order, decree, or judgment of the court, or when any money is to be paid to the treasurer pursuant to any provision of this title or the Code of Civil Procedure, such money shall be deposited as soon as practicable after the receipt thereof with such treasurer and a duplicate receipt of the treasurer for it shall be filed with the auditor. SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955]

In effect
September
7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 95 is added to the Agricultural Code, to read:

95. Where a charge is made for admission to enter a state, district, county, or citrus fruit fair in this State, entrance to such fairgrounds, without the payment of the established admission price, shall be limited as follows:

Credential admissions shall be those admissions authorized by the board of directors of a state, district, or citrus fruit fair or by the board of supervisors of a county for admission to a fair without payment when a service is rendered necessary for the conduct of the fair. The words "credential admission" shall be printed on each ticket so issued.

Credential admissions may be issued to individuals, associations, and bodies who prepare or service educational, commercial, industrial, livestock, agricultural, horticultural, viticultural displays or exhibits, service, maintain or operate concessions; render, through agreement with the fair, a service to fair patrons; render a necessary public service, safeguard health, provide for public safety, participate in parades or events necessary for the conduct of the fair; representatives of press, radio, and television personally engaged in obtaining and transmitting public information; ambulance drivers, firemen on duty, and repairmen necessary to service utilities, and to employees of the fair, and state officials in the performance of duty.

The number of courtesy passes for admittance without payment to any state, district, citrus fruit, or county fair shall not exceed 4 percent of the gross paid admissions to the fair in the preceding calendar year.

Any courtesy pass or courtesy passes issued pursuant to the limitation of this section shall not be transferred to any other person.

Each fair shall maintain complete records of the number of credential and courtesy admissions issued for each fair period.

Each fair shall make an annual report to the Department of Finance, as prescribed by said department, of the total number of credential and courtesy pass admissions issued and honored at each fair.

CHAPTER 320

An act to amend Section 12845 of the Public Utilities Code, relating to municipal utility districts, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 12845 of the Public Utilities Code is amended to read:

12845. Any district operating utility works and having a population of not more than 500,000 may accept, without

limitation by any other provisions of this division requiring approval of indebtedness, loans from any person, firm, or corporation for the purpose of financing the construction of office buildings and warehouses for the district, and the acquisition of sites therefor, with appurtenances necessary or convenient thereto. The evidence of the district's indebtedness shall constitute a negotiable instrument.

As used in this section, "construction" includes the meaning of "reconstruction," "repair," "improve," "remodeling," "rehabilitation," and "completion."

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Certain districts are finding it necessary to construct additional buildings for the proper housing of their personnel and facilities in order to render efficient utility service to their consumers. It is necessary that those districts' powers to obtain construction loans in connection therewith in accordance with usual business practices be clarified in order that construction may be completed as soon as possible.

CHAPTER 321

An act to add Section 12648.1 to, and to amend Section 12657 of, the Water Code, relating to flood control, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 12648.1 is added to the Water Code, to read:

12648.1. The plan of flood control on the American River is hereby authorized and adopted substantially in accordance with the recommendations of the Chief of Engineers, House Document Numbered 367, Eighty-first Congress, and adopted and authorized by the act of Congress approved August 17, 1954, at an estimated state cost of five hundred thousand dollars (\$500,000). Said project shall be considered as extending and supplementing the projects authorized pursuant to Section 12648. Section 12828 shall not be applicable to the project.

American
River
project

SEC. 2. Section 12657 of said code is amended to read:

12657. Except as otherwise provided in Chapters 1 and 2 of this part, the Reclamation Board shall give assurances satisfactory to the Secretary of War that the local cooperation, required by Section 3 of the act of Congress approved December 22, 1944 (Public, Numbered 534, Seventy-eighth Congress,

Assurances
of local
cooperation

Second Session) and Section 2 of the act of Congress approved August 18, 1941 (Public, Numbered 228, Seventy-eighth Congress, First Session), will be furnished by the State in connection with the flood control projects authorized and adopted in Sections 12648, 12648.1, 12650, 12651, 12652, and 12654 and on any flood control projects on any stream flowing into or in the Sacramento Valley or the San Joaquin Valley hereafter approved and authorized by Congress.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The project authorized pursuant to this act is essential to protect 3,300 acres of land adjacent to the City of Sacramento from recurrent flooding. In 1950-1951 flood damage in this area was estimated by the Corps of Engineers, United States Army, to be three million four hundred thousand dollars (\$3,400,000) and necessitated the evacuation of 4,500 residents from this suburban area of the City of Sacramento. Even greater damage would result if a similar flood should now occur even though a lesser area would be affected. Anticipated federal appropriations for construction of this project in the 1955-56 Fiscal Year render it essential that the State immediately provide for the necessary flood control measures to protect the people of the State from threatened disaster, and it is, therefore, necessary that this act go into immediate effect.

CHAPTER 322

An act to amend Sections 16430 and 16431 of the Education Code, relating to supervision and control of school safety patrols.

In effect
September
7, 1955

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 16430 of the Education Code is amended to read:

16430. The governing board of any school district may, subject to such rules and regulations as shall be adopted by the State Board of Education, establish and maintain a school safety patrol in any of the schools of the district for the purpose of assisting pupils of such school in safely crossing streets and highways adjacent to or near such school.

SEC. 2. Section 16431 of said code is amended to read:

16431. A school safety patrol established in any school as herein provided shall be composed of pupils attending in such school. The members of the patrol shall be under the supervision and control of a qualified employee of the district des-

ignated by the board, except as otherwise provided in this chapter. The provisions of this section shall not, however, be deemed to require the physical presence of such employee at any particular street or highway location where any such school safety patrol is functioning.

CHAPTER 323

An act to amend Sections 3710, 3710.1, 3710.2, 3711, 3712, and 3715 of the Labor Code, relating to workmen's compensation insurance.

[Approved by Governor April 29, 1955 Filed with
Secretary of State April 29, 1955.]

In effect
September
7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 3710 of the Labor Code is amended to read:

3710. The Director of Industrial Relations shall enforce the provisions of this article. He may employ necessary investigators, clerks, and other employees, and make use of the services of any employee of the department whom he may assign to assist him in the enforcement of this article. Prosecutions for criminal violations of this division may be conducted by the appropriate public official of the county in which the offense is committed, by the Attorney General, or by any attorney in the civil service of the Department of Industrial Relations designated by the director for such purpose. Enforcement

SEC. 2. Section 3710.1 of said code is amended to read:

3710.1. Where an employer has failed to secure the payment of compensation as required by this article, the director or his designated agents may serve on the employer a written notice demanding compliance with the provisions of this article. Service of notice

SEC. 3. Section 3710.2 of said code is amended to read:

3710.2. Failure to secure the payment of compensation under this article is a misdemeanor. Failure to secure the payment of compensation within 10 days after service of the notice provided in Section 3710.1 makes mandatory on the tribunal before whom the charge of violation of this article is tried the imposition of a sentence of imprisonment in the county jail for not less than 10 days and a fine of not less than three hundred dollars (\$300). Proof of continued violation of this section for 30 days makes mandatory on the tribunal before whom the charge of violation of this section is tried the imposition of a fine of not less than three hundred dollars (\$300). An award of the Industrial Accident Commission finding wilful uninsurance is prima facie evidence of the employer's failure to secure the payment of compensation under this article. In any prosecution brought under the provisions of Sections 3710 to 3710.2 the statute of limitations shall not commence to run until the discovery by the director or his Penalty for violation

designated agents of the failure to secure the payment of compensation or the tenth day after service of the notice provided in Section 3710.1, whichever is later.

SEC. 4. Section 3711 of said code is amended to read :

Written
statement

3711. The Director of Industrial Relations or his designated agents may require at any time any employer to furnish a written statement showing the name of his insurer or the manner in which the employer has complied with the provisions of this article. Failure of the employer for a period of 10 days to furnish such written statement is prima facie evidence that he has failed or neglected in respect to the matters so required. In any prosecution under this article, the burden of proof is upon the defendant to show that he has secured the payment of compensation in one of the two ways set forth in this article.

SEC. 5. Section 3712 of said code is amended to read:

Failure
to secure
payment
declared
nuisance

Abatement

Injunction

3712. The securing of the payment of compensation in a way provided in this division is essential to the functioning of the expressly declared social public policy of this State in the matter of worker's compensation; and the conduct or operation of any business or undertaking without full compensation security, in continuing violation of such social policy, is hereby declared to be a nuisance which may be abated upon suit brought in the name of the Director of Industrial Relations before the superior court of any county in which all or some part of such business is being thus unlawfully conducted or operated. In no such proceeding may any filing fee be charged to the plaintiff; nor may any charge or cost be imposed for any act or service required of or done by any state or county officer or employee in connection with such proceeding. No bond shall be required as a prerequisite to the granting of a restraining order. If the court or the judge before whom the order to show cause in such proceeding shall be made returnable, shall find that the defendant is conducting or operating a business or undertaking without the full compensation security required, he shall forthwith, and without continuance, issue an order restraining the future or further conduct and operation of said business or undertaking so long as such violation of social public policy shall continue. Such action may be prosecuted by the Attorney General of California, the district attorney of the county in which suit is brought, the city attorney of any city in which such a business or undertaking is being operated or conducted without full compensation security, or any attorney possessing civil service status who is an employee of the Department of Industrial Relations who may be designated by the director for such purpose. No finding made in the course of any such action shall be binding on the commission in any subsequent proceeding before it for benefits under this division.

SEC. 6. Section 3715 of said code is amended to read :

Aid in
collecting
award

3715. If an employee is granted an award by the Industrial Accident Commission wherein the employer is found through

evidence presented at an open hearing to be wilfully uninsured, and the employee is not represented by an attorney, the employee may request the director or his designated agents to assist in the collection of his award. No state or county agency, officer, or employee shall charge the department for any services rendered the employee in connection with such request, but a fee for services rendered, together with the sum of one hundred dollars (\$100) shall be added to the award made by the Industrial Accident Commission. When the award is collected, the fee for services rendered shall be paid to the proper agency, officer, or employee and the sum of one hundred dollars (\$100) shall be paid into the General Fund in the State Treasury.

CHAPTER 324

An act to amend Sections 5252 and 5254 of the Welfare and Institutions Code, relating to feeble-minded persons and other incompetents not insane.

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955.]

In effect
September
7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 5252 of the Welfare and Institutions Code is amended to read:

5252. A petition for the commitment of a feeble-minded person or an epileptic who is not insane to the Department of Institutions for placement in a designated state home for the feeble-minded may be filed in the superior court of the county in which such person resides, by any of the following persons:

5254. In all cases the court shall require due notice of the hearing of the petition to be given to the alleged incompetent. Whenever a petition is filed by a probation officer, district attorney, the Youth Authority or the Director of Corrections, the court shall require such notice of the hearing of the petition as it deems proper to be given to any parent, guardian, or other person charged with the support of the person mentioned in the petition.

CHAPTER 325

An act to amend Section 2500 of the Elections Code, relating to primary elections, and declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955.]

The people of the State of California do enact as follows:

- (d) Nomination of officers for any district not formed for municipal purposes.
- (e) Nomination of officers for fifth and sixth class cities.
- (f) Nomination of school district officers.

The provisions of this chapter governing the nomination of candidates for county offices shall also apply to the nomination of freeholders to be elected for the purpose of framing a charter under the authority of Article XI, Section 7½ of the Constitution; provided, however, that no candidate's name shall be printed on the ballot to be used at the election of such freeholders unless a declaration of his candidacy is filed not earlier than the day upon which the order calling such election is made and not later than 18 days prior to such election.

Where any person has been elected to the office of freeholder in accordance with the procedure specified herein, and such election has taken place on or after January 1, 1955, such person is hereby declared to be validly elected; all acts of such person are hereby legalized, ratified, confirmed, and declared valid for all intents and purposes.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The provisions of the Elections Code are in conflict with the procedure specified in the Constitution for nominating candidates for boards of freeholders at county charter elections, and, consequently, no certain method for nominating freeholders prevails until the change proposed by this act is effected.

CHAPTER 326

An act to add Article 1.5 to Chapter 2 of Part 1 of Division 2 of the Welfare and Institutions Code, relating to the prevention of delinquency.

CHAPTER 330

An act to amend Section 818 of, and to add Section 818.2 to, the Agricultural Code, relating to standards for potatoes, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor April 29, 1955. Filed with
Secretary of State April 29, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 818 of the Agricultural Code is amended to read:

Potatoes

818. Potatoes shall be free from mold, decay, soft and wet rots, and black heart; and free from serious damage due to hollow heart, insect injury, freezing, sun scald, dry rots, scab, growth cracks, sunburn, greening, second growth, cuts, bruises, grass roots, nematodes, net necrosis or other internal discoloration, or other causes.

Damage to any one potato is not serious when it is caused by:

(a) Hollow heart unless the cracks or cavities, singly or in combination, are greater in length or width than one-third of the diameter of the tuber measured at the widest portion of cross section, at a right angle to a straight line drawn from the stem end to the distal end thereof.

(b) Greening unless the affected portion has at least a greenish tinge of color and causes a waste of 10 percent, by weight, of the individual potato. Light tan or cream colored flesh shall not be considered as damage.

(c) Cuts unless, (1) in the case of long varieties, both ends of the potato have been removed, or (2) more than one-fourth of any portion of the potato has been removed as indicated by the contour of the remaining portion of the potato, or (3) in the case of long varieties one end is removed and the remaining portion of the potato weighs less than six ounces, or (4) in the case of long varieties the cuts are on the sides and the total length of any one such cut is more than one-half the length of the potato. "Cuts" means that a portion of the potato has been removed by cutting, breaking or mechanical injury or any other cause.

(d) Net necrosis or other internal discoloration unless the affected portion has dark brown or black areas in the flesh and causes a waste of 10 percent, by weight, of the individual potato.

(e) Insect injury, freezing, sun scald, dry rots, scab, growth cracks, sunburn, second growth, bruises, grass roots, nematodes, or other causes unless such defects cause a waste of 10 percent, by weight, of the individual potato.

Not more than 5 percent, by weight, of the potatoes in any one container or bulk lot may contain internal defects, including those caused by hollow heart, net necrosis, or any other type of necrosis, stem-end browning, internal brown spots, or other similar types of discoloration not visible externally, but excluding black heart. Not more than 6 percent, by weight, of the potatoes in any one container or bulk lot may be below the other requirements of this section (including freedom from black heart), but not to exceed one-sixth of this tolerance shall be allowed for soft or wet rots. These tolerances are on a container basis. However, with respect to the 6 percent tolerance and the 5 percent tolerance, separately, individual containers in any lot may contain not more than double the tolerance specified, except that in case of potatoes affected by soft rot or wet breakdown not more than one-tenth of the containers may contain not more than four times the tolerance specified, and except that at least one defective specimen shall be permitted in a container; provided, that the averages for the entire lot, based on sample inspection, are within the tolerances specified.

Containers of potatoes shall not bear any marking, brand or designation of quality such as "extra selected," "selected," "select," "extra fancy," "fancy," "choice," "No. 1," or other similar superlative designations which imply a reasonably high quality, unless the contents of the container conform at least to the requirements of the U. S. No. 1 grade established for potatoes by the United States Department of Agriculture.

Markings
restricted

SEC. 2. Section 818.2 is added to said code, to read:

818.2. (a) A "California Standard" grade of potatoes is hereby established. Containers of potatoes may not be so labeled unless the potatoes contained therein meet the requirements of this section. Such potatoes shall meet the requirements for U. S. No. 1 grade established for potatoes by the United States Department of Agriculture, except that they

"California
Standard"
grade

need only be free from serious damage by dirt, as defined in the U. S. grades for potatoes, but the tolerances for defects specified in subdivisions (c) and (d) shall be allowed.

Diameter

(b) The diameter of each potato shall be not less than $1\frac{1}{8}$ inches.

The potatoes need not conform to the $1\frac{1}{8}$ inches diameter requirement if each container is clearly and conspicuously marked near the term "California Standard," or other terms for such grade permitted by this section, with one of the size classifications or methods of indicating size designated in the U. S. grades for potatoes and the potatoes in the containers shall conform with such size as marked.

Containers of potatoes not marked as to size and required to be $1\frac{1}{8}$ inches in diameter and those marked with one of the size classifications or methods of indicating size designated in the U. S. grades for potatoes shall be subject to the tolerances as to size as set forth in the U. S. grades for potatoes.

Tolerances

(c) Except as to tolerances for size and sprouting 15 percent of such potatoes in any lot may be below the requirements specified in this section, but not more than 5 percent may be seriously damaged by hollow heart and internal discoloration as defined in the U. S. grades for "serious damage" due to these two causes. Not more than 6 percent may fail to meet the remaining requirements of the U. S. No. 2 grade, but not more than one-half of this amount (3 percent) may be affected by southern bacterial wilt, ring rot, or late blight, including not more than 1 percent for frost, soft rot, or wet breakdown.

The tolerances for the standards are on a container basis; however, individual packages in any lot may vary from the specified tolerances in the amounts indicated in the U. S. standards for potatoes relating to lot tolerances; provided, the averages for the entire lot, based on sample inspection, are within the tolerances specified herein.

(d) In addition, not more than 10 percent of such potatoes may have sprouts over three-fourths of an inch long so long as the potatoes are free from serious damage by shriveling as defined in the U. S. grades for potatoes, except that if the 15 percent tolerance specified in subdivision (c) is not used entirely for other defects, the unused portion of the tolerance may be used for potatoes having sprouts over three-fourths of an inch long but which are not damaged seriously by shriveling.

"California Standard" potatoes may also be labeled or designated as "Standard" or "Calif. Standard" and if so labeled must meet the requirements of this section.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to insure the proper quality of potatoes and protect the health of the citizens of this State during the 1955 season this act must take effect immediately.

CHAPTER 331

An act to add Section 28007 to the Government Code, relating to officers and employees of counties, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 29, 1955 Filed with
Secretary of State April 29, 1955]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 28007 is added to the Government Code, to read:

28007. Notwithstanding any provision of law to the contrary, no officer or employee of a county shall be liable for any acts done by him, prior to June 2, 1955, in connection with having paid the monthly salary of an employee of such county if such employee has performed, during the month for which he is paid, the duties required for the position for which he is paid.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of technical deficiencies in processing county personnel, a question has arisen regarding the validity of the payment of the salary of several hundreds of county employees. In order that such employees may be retained in service pending corrective processing, thereby avoiding a disastrous disruption of essential county services and in order that such employees may be paid during such processing it is necessary that this act take effect immediately.

CHAPTER 332

An act to repeal an act entitled "An act for the certification of land titles and the simplification of the transfer of real estate," approved March 17, 1897, relating to the registration of land titles, deeds, and instruments affecting land titles, and all acts amending same; thereby repealing all provisions of law relating to the registration of land titles, deeds, and instruments affecting land titles, and making provision as to titles to land registered thereunder; declaring the urgency of this act, to take effect immediately.

[Approved by Governor April 29, 1955 Filed with
Secretary of State April 30, 1955]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. An act entitled "An act for the certification of land titles and the simplification of the transfer of real estate", approved March 17, 1897, as amended, including an act Repeal

to amend said act of March 17, 1897, approved by the electors November 3, 1914 (Statutes of 1915, page 1932), (herein collectively referred to as "said act"), is hereby repealed.

Registers of
titles, etc.

SEC. 2. Upon the effective date hereof, all registers of titles, all files and documents supporting same, and all indices and other books and records maintained under the provisions of said act shall become a part of the records of the office of the county recorder of the county in which the office of the registrar of titles has been maintained, for all purposes as fully (except as hereinafter provided) as though they had from their inception formed an integral part of the records of the office of such county recorder.

Registered
instruments,
etc.

SEC. 3. After the effective date hereof, all instruments, documents, and papers affecting title to land which had been registered under the provisions of said act (other than all instruments, documents, and papers registered by the registrar of titles prior to the effective date hereof), shall be filed or recorded in the office of the county recorder of the county in which such land is situated in the same manner and with the same effect as though title to said land had never been registered.

Effect of
titles, etc

SEC. 4. Nothing herein contained shall in any manner affect any determination made in connection with the original registration of title to any land or made in connection with the issuance of any certificate of title by the registrar of titles subsequent to the original registration. All instruments, documents, and papers registered by the registrar of titles and every entry and endorsement of any memorials upon any such certificate of title shall be considered to form part of the record chain of title to such land and afford constructive notice of their contents to the same extent as though they appeared of record in the office of the county recorder; provided, however, that no such instrument, document, paper, entry or endorsement shall have any greater or other effect after the effective date hereof, as constructive notice or otherwise, than it had or acquired at the time it was registered or made; and provided, further, that nothing herein contained shall be construed as giving any greater or other effect, as constructive notice or otherwise, to any instrument, document or paper recorded in the office of the recorder of any county prior to the effective date hereof, as to any lands the title to which had been registered than was provided by the laws of this State (including said act) in effect at the time such instrument, document or paper was recorded. (Illustration: A recorded abstract of judgment is not a lien on registered land unless registered; and such abstract of judgment, recorded but not registered prior to the effective date hereof, will, under this section, not constitute a lien on registered land after said effective date until recorded anew.)

Retention
of rights

SEC. 5. Nothing herein contained shall terminate, diminish or impair any existing right in or pertaining to land, title to which had been registered under said act, or any existing

right to resort to any fund created thereunder, but any such right may be asserted and enforced in the same manner, to the same extent, and subject to the same limitations provided in said act.

SEC. 6. This repeal of said act is made under authority of law, including the act to amend said act by adding thereto Section 116, adopted by the First Extraordinary Session of 1954, Chapter 58, and approved by the electors on November 2, 1954. Authority

SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

To save the taxpayers of this State hundreds of thousands of dollars by making the repeal of said act effective on or before July 1, 1955, at which time budget and personnel requirements are fixed by the various county offices for the fiscal year. The Land Title Law provides for a system of registration of land titles which has proved to be unsatisfactory, cumbersome and a costly expense to the general taxpayer. The "Assurance Fund" established by the act has been insolvent for years and serves only as a trap to the unwary. The matter of land titles is of extreme importance to the people of this State and particularly when the State is experiencing a great influx of population, the security in dealing with title to land is of paramount concern. The existence of a dual system of evidencing title to land is confusing and the Land Title Law needs to be correlated into the the recording system to insure efficient and economical operation of our recording laws.

CHAPTER 333

An act to add Chapter 5, comprising Sections 5400 to 5404, inclusive, to Division 6, Title 1, of the Government Code, and to repeal Article 1, comprising Sections 50600, 50601 and 50602, of Chapter 3, Part 1, Division 1, Title 5 of said code, relating to the levy of taxes and assessments to pay principal and interest of bonds of public bodies authorized but unsold.

[Approved by Governor May 2, 1955. Filed with
Secretary of State May 2, 1955.]

In effect
September
7, 1955

The people of the State of California do enact as follows:

SECTION 1. Chapter 5, comprising Sections 5400 to 5404, inclusive, is added to Division 6, Title 1, of the Government Code, to read:

CHAPTER 5. TAX OR ASSESSMENT LEVY FOR UNSOLD BONDS

5400. "Public body" as used in this chapter means any county, city and county, city, public district, public authority or other public corporation which is authorized to issue bonds. "Public
body"

"Bonds" 5401. "Bonds" as used in this chapter means any bonds or other evidences of indebtedness the principal and interest of which are payable or may be paid from ad valorem taxes or assessments levied by or on behalf of a public body.

"Governing body" 5402. "Governing body" as used in this chapter means the board of supervisors, city council, board of directors or other legislative or governing body which has the power to fix the annual tax or assessment levy for a public body.

Power to levy tax or assessment 5403. When bonds to be issued by or on behalf of a public body have been authorized by an election or other method provided by law, and where it is expected that all or any part of such bonds will be sold at such time that principal or interest on such bonds will become due before the proceeds of a tax or assessment levied after such sale would be available to pay such principal or interest, the governing body, at the time of fixing the annual tax or assessment levy, may levy a tax or assessment, as the case may be, in an amount clearly sufficient to pay that portion of the principal of and interest on said bonds which it is expected will become due before the proceeds of the next succeeding tax or assessment levy will be available.

Transfer to general fund 5404. If at any time following the levy of the tax or assessment authorized by Section 5403, the board, council or other body having the power to sell the bonds shall determine that the bonds are not to be issued and sold, the proceeds of the tax or assessment so levied to pay such principal or interest may be transferred to the general fund of the public body.

Repeals SEC. 2. Article 1, comprising Sections 50600, 50601, and 50602, of Chapter 3, Part 1, Division 1, Title 5 of the Government Code is repealed.

CHAPTER 334

An act to amend Section 43605 of the Government Code, relating to the incurring of bonded indebtedness of cities.

In effect
September
7, 1955

[Approved by Governor May 2, 1955. Filed with
Secretary of State May 2, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 43605 of the Government Code is amended to read:

43605. A city shall not incur an indebtedness for public improvements which exceeds in the aggregate 15 percent of the assessed value of all real and personal property of the city. Within the meaning of this section "indebtedness" means bonded indebtedness of the city payable from the proceeds of taxes levied upon taxable property in the city.

CHAPTER 335

An act to amend Section 1593 of the Education Code, relating to changes in status of school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 2, 1955. Filed with
Secretary of State May 2, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1593 of the Education Code is amended to read:

1593. In the case of every other action referred to in this article, the action shall be effective as to any district in any way affected by the action on the date the action is completed for the following purposes:

(a) The determination of the assessed valuation of any district or districts affected by the action.

(b) The appointment or election of members of the governing boards of the school districts affected.

(c) The preparation and submission of school district budgets.

(d) The election or appointment of employees for the ensuing school year.

(e) The calling and conducting of elections for and the issuance and sale of school district bonds, as to any district in any way affected by the action whether it be a newly formed district or one which territory has been added to or taken from by the action and including the calling and conducting of such elections only in that portion of the district remaining after territory has been excluded therefrom in any manner by such action.

(f) The exercise by the governing boards of the school districts affected of other powers and duties vested in governing boards of school districts of the same type or class and not inconsistent with other provisions of this code.

(g) The holding of an election to determine whether a newly formed elementary school district, or a district comprised within a newly formed union or joint union elementary school district shall become a part of a high school district.

(h) The calling and conducting of elections to increase the maximum rates of tax for district or districts affected.

(i) The calling and conducting of elections for the assumption of bonded indebtedness.

(j) The unionization or uniting of the district with one or more other school districts, or its annexation to another school district.

(k) The calling and conducting of elections for the acceptance and repayment of any allocation of state funds under any state school building aid law, as to any district in any way affected by the action, whether it be a newly formed district or one which territory has been added to or taken from by the action.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Subsection (e) of Section 1593 of the Education Code has been interpreted as applicable only to new districts or districts to which territory has been added and not to territory withdrawn from the district. Such interpretation has led to doubt and uncertainty as to the liability of territory for bonded indebtedness where the bonds have been issued subsequent to the completion of the action but prior to the otherwise effective date under Section 1591 of the Education Code. There is an imperative need for adequate provision of school buildings and facilities for the ever-growing school population throughout the State. The uncertainty as to the effective date of changes in status of school territory is seriously hampering the proper adjustment of school boundaries and provision for adequate school facilities. Since elections for the acceptance and repayment of funds allocated to districts under the State School Building Aid Law is often an integral part of a school financing plan and connected with the calling and conducting of elections for the issuance and sale of school district bonds, it is imperative that the same rules apply to this type of proceedings as apply to bond elections. Therefore, it is necessary that this act take effect immediately.

The peace, health and safety of the citizens of the State require the immediate construction and financing, by the issuance and sale of bonds authorized by this act, as soon as possible, and before this act would otherwise become effective, of urgently needed projects or works of improvement provided for under said act. The district requires the immediate construction of projects or works of improvement for water conservation and the control, disposition and distribution of water resources, the cost of which is beyond the means of the property owners and taxpayers of the district so that it is necessary to obtain financial aid from the United States Government therefor. The United States Government has ap-

proved the construction of the Coyote Valley Dam project on the Russian River and authorized the appropriation of eleven million five hundred twenty-two thousand dollars (\$11,522,000) for accomplishment of the initial stage thereof, provided the district shall contribute five million five hundred ninety-eight thousand dollars (\$5,598,000) in cash prior to the commencement of construction. In order to make the required immediate contribution of said sum in order to obtain such financial and other aid from the United States Government, the district must immediately issue bonds under said act as amended hereby.

The works to be acquired and constructed and the rights to be acquired may extend beyond the territory embraced within said municipality or said district, and may include the entire cost and expense of the acquisition of flowage rights in outfall sewers and sewage disposal works of any such county or other municipality or sanitary district.

SEC. 2. Section 8 of said act is amended to read:

The ordinance calling such election shall also recite the objects and purposes for which the proposed indebtedness is to be incurred, the nature of the improvement contemplated thereby, the estimated cost thereof, the estimated cost of the incidental expense in connection therewith, the amount of the principal of the indebtedness to be incurred therefor, and the rate of interest to be paid on such indebtedness; provided, however, that in its discretion said legislative body may recite in such ordinance a maximum rate of interest to be paid on such indebtedness, which rate when so recited, shall not be exceeded in the issuance of bonds for such indebtedness; and said ordinance shall fix the date on which such election shall be held, the manner of holding the same and the manner of voting for or against said proposition. The interest coupons on said bonds shall be numbered consecutively and signed by the treasurer of such municipality by his engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of the bonds. The proceeds of the sale of such bonds shall be placed in the treasury of such municipality to the credit of the proper district fund and shall be applied exclusively to the purposes and objects mentioned in the ordinance ordering the holding of the bond election as aforesaid and to the incidental expense in connection therewith; provided, however, that when said purposes and objects have been accomplished any moneys remaining in such improvement fund shall be transferred to the fund to be used for the payment of principal of and interest on the bonds.

Urgency

SEC. 5. This act is an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

Bonds are being voted for sewer treatment and disposal facilities which are urgently needed to protect the public health of the people in said districts. With the semiannual payment of interest required by the law as it now exists bonds cannot be issued until July first or later in the year and the projects would be delayed, endangering the health of the people in the districts. Therefore, to provide sewer facilities necessary for public health at an early date, it is necessary that this act take effect immediately.

802. As applied to grapes:

(a) "Mature" means that each bunch of the varieties classi- ^{Maturity}
fied above in Group A shall test not less than 17 percent solu-
ble solids in juice, as determined by the Balling or Brix scale
hydrometer; however, in view of differences in climatic condi-
tions prevailing north and west of San Gorgonio Pass, which
results in the Thompson Seedless and Malaga varieties of
grapes grown in that area having, at maturity, a higher per-
centage of soluble solids than mature grapes of these varieties
grown in the area south and east of San Gorgonio Pass,
Thompson Seedless and Malaga grapes produced in the area
north and west of San Gorgonio Pass shall so test not less than
18 percent, except that Thompson Seedless grapes produced
in the area north and west of San Gorgonio Pass shall be con-
sidered mature if they so test not less than 17 percent and if
the juice contains soluble solids equal to or in excess of 25
parts to every part of acid contained in the juice (the acidity
of the juice to be calculated as tartaric acid without water of
crystallization); however, the varieties Emperor, Gros Col-
man, Bleu Grau, Drodelabi, Fresno Beauty, Servian Blue,

Pierce Isabella, Pierce, Isabella Regia, California Concord, Concord, Dattier de Beyrouth, Red Malaga, Khalili, Persian 23, Dizmar, Ribier, Delight and Perlette shall so test not less than 16 percent and the varieties Olivette Blanche, Ladyfinger, Rish Baba, and Khandahar shall so test not less than 15 percent; however, the Blackrose and Cardinal varieties shall so test either not less than 16 percent or not less than 15 percent if the juice contains soluble solids equal to or in excess of 25 parts to every part of acid contained in the juice (the acidity of the juice to be calculated as tartaric acid without water of crystallization).

"Mature" in the case of all other varieties shall mean that the average or composite test of all the grapes in any container or bulk lot shall be not less than 17 percent soluble solids in juice, as determined by the Balling or Brix scale hydrometer; however, white varieties of the Muscat type shall test not less than 18 percent and the variety Burger shall test not less than 16 percent.

In the event that the maturity standard fixed for the Thompson Seedless and Malaga varieties of grapes produced in that area northwest of the San Geronio Pass should be declared void, it is the intent of the Legislature that the other maturity standards prescribed in this section shall prevail.

Any varieties included in Group A may be placed in the standard for juice grapes and other varieties may be placed in the standard established for table grapes, but regardless of standard, the maturity of varieties included in Group A shall be determined by testing the juice from entire bunches representative of the least mature grapes in any container and constituting not less than 10 percent by weight of the contents of the container. The maturity of all varieties not included in Group A shall be determined by testing the juice from a composite sample representative of the average of the grapes in any container or bulk lot. The standards provided by this section are minimum standards, and the tolerances allowed by Sections 800 and 801 shall not be applied to any test made in accordance with this section for the purpose of determining whether any lot of grapes complies with the maturity standard for the variety; however, no lot of grapes of the varieties classified in Group A shall be considered as failing to meet the maturity requirements of this section because the sample of grapes from one container fails to meet the required test.

Each such report shall contain, amongst other information required by the commissioner, a balance sheet of the company as of the last day of the previous calendar year and statements of income and surplus for such previous calendar year, together with an opinion by an independent certified public accountant or public accountant as to whether such financial statements have been prepared in conformity with generally accepted accounting principles. The opinion shall be based on an examination of such financial statements made in accordance with generally accepted auditing standards and accordingly including such tests of the accounting records and such other auditing procedures as are considered necessary in the circumstances, and such examination shall include a count or independent confirmation of investment certificates, investments, loans and receivables in accordance with generally accepted principles

Each company report shall contain a schedule showing the amount of delinquent loans and receivables classified according to their delinquent status in such form and detail as the commissioner may by regulations prescribe. Reserves for possible losses in collection shall be separately disclosed in the financial statements. CHAPTER 408

An act to amend Section 1403 of the Fish and Game Code, relating to burros, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor May 10, 1955. Filed with
Secretary of State May 10, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 1403 of the Fish and Game Code is amended to read:

1403. It is unlawful to kill, wound, capture, or have in possession any undomesticated burro, except as hereinafter provided in this section. An undomesticated burro, for the purpose of this chapter, is a wild burro or a burro which has not been tamed or domesticated for a period of three years after its capture. The fact that a burro was killed, wounded, or captured on publicly owned land, or on land owned by a person or persons other than the person who killed, wounded, or captured the burro is prima facie evidence that the burro was an undomesticated burro at the time it was killed, wounded, or captured. The commission or any other department or agency has no power to modify the provisions of this section by any order, rule, or regulation under Article 1, Chapter 2, Division 1, or any other provision, of this code, or any other law of this State.

All undomesticated burros are hereby declared to be the property of the State of California. Any person who desires to capture an undomesticated burro for the purpose of domesticating it and possessing it as a pet or for use as a beast of burden may apply to the Department of Agriculture for a permit to capture an undomesticated burro. The application

for such a permit shall be in writing. In the application the applicant shall state his name and address and shall also state that, if the permit is granted, he intends to, and will, possess and use such burro as he may capture under the permit only in accordance with the terms of the permit. The permit, when issued, shall authorize the person to whom it is issued to capture one undomesticated burro within the period of six months after the date of the permit. The permit shall also provide that an undomesticated burro captured under the permit shall remain the property of the State of California until the expiration of three years after the date of the permit, that until the expiration of such period the person to whom the permit is issued shall not have nor exercise any rights to said burro except to possess it for use as a pet or as a beast of burden, and that if said burro is so possessed until the expiration of such period, the ownership of said burro shall vest in the person to whom the permit is issued. Not more than one such permit shall be issued to any one person during any one calendar year and the total number of such permits shall not exceed 12 in any one calendar year. Any wilful violation of the provisions of a permit issued under this section is unlawful.

This section shall remain in effect until the ninety-first day after the final adjournment of the Regular Session of the Legislature in 1957.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That there are very few of the wild or undomesticated burros left in this State and they are being captured and removed by the truck load for slaughtering in places other than that of their capture. This amendment will prevent the capture of burros for subsequent killing and since it is imperative to stop this slaughter at the earliest possible time it is necessary that this act take effect immediately.

- (d) The reissuance of licenses.
- (e) The re-examination of licensees.

SEC. 2. Section 7211.9 is added to said code, to read:

sion

- (a) Made any false statement or given any false information in connection with an application for a license or certificate, or a renewal or reinstatement thereof.
- (b) Violated any provision of this chapter.

When so ordered by a superior

judge, they shall see that such dangerously mentally ill or mentally ill or insane persons are, without unnecessary delay, transferred to the proper state hospitals provided for their care and treatment. Before sending a person to any such hospital, they shall see that he is in a state of bodily cleanliness and comfortably clothed with new clothes. The department may by order direct that any person whom it deems unsuitable therefor shall not be employed as an attendant for any mentally ill or an insane person. After the patient has been delivered to the proper officers of the hospital, the care and custody of the county or municipality from which he is sent cease.

Education of
eighth grade
pupils

8771. During the first school year succeeding the discontinuance of a junior high school or system of junior high schools in any high school district, the pupils of the eighth grade residing in any elementary school district situated in such high school district shall be educated by the high school district pursuant to an agreement entered into between the governing boards of the school districts concerned stipulating the terms upon which the interdistrict attendance shall be permitted, or upon order of the county board of education prescribing the terms upon which such pupils shall be educated by the high school district.

Cost

8772. The governing board of the elementary school district shall not pay, or be required to pay, to the high school district for the education of the eighth grade pupils under this article an amount in excess of the actual net cost to the high school district of educating such pupils but such amount shall not be less than the average net cost of educating pupils in the first seven grades of the elementary schools of the elementary school district.

Warrants
for cost

8775. This article shall not apply to any high school district which has received an apportionment of funds pursuant to the provisions of Chapter 16 or Chapter 19 of Division 3 of this code.

SEC. 2. Section 10301.4 is added to said code, to read:

Accredita-
tion for
supporting
seventh and
eighth grades

10301.4. Notwithstanding any provision of law to the contrary, and in order to provide for the financial support of the district affected, whenever an elementary school district situated in a high school district maintaining one or more junior high schools maintains the seventh or eighth grades, or both, during the school year 1954-55, or prior thereto, the attendance of pupils upon classes during such school years shall be credited to the elementary school district for the apportionment of state funds, and the district may levy taxes and expend funds from whatever source derived for their maintenance.

All acts in connection with the maintenance of such classes, apportionments of state funds to such districts, taxes levied, assessed and collected, and expenditures of district funds for such purposes heretofore or hereafter made or done, are hereby ratified, confirmed and validated.

SEC. 3. Section 10301 5 is added to said code, to read:

Agreements
for education
of seventh
and eighth
grade pupils

Any contract entered into pursuant to this section does not in any manner change the legal status of any high school district authorized to maintain seventh and eighth grades, and the authorization and obligation of such high school district to furnish school buildings for such seventh and eighth grade pupils is and shall continue to be a sole responsibility of such district.

Contracts entered into pursuant to this section shall be for a fiscal year only.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Urgency

A serious question exists as to whether an elementary school district situated in a high school district maintaining junior high schools is authorized to contract with the governing board of the high school district pursuant to Education Code Section 1502 for the education of pupils of the seventh and eighth grades, in view of the provisions of Education Code Section 10301. Since the solution of the question will affect the counting of attendance of pupils in the public schools for apportionment purposes which may delay the apportionment of the State School Fund to the several school districts in this State, and since there is now no authorization for the discontinuance of junior high schools established in county, union, or joint union high school districts, it is necessary that this act take effect immediately.

CHAPTER 422

An act to amend Section 1347 of the Fish and Game Code, relating to elk, declaring the urgency thereof to take effect immediately.

[Approved by Governor May 10, 1955. Filed with
Secretary of State May 10, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1347 of the Fish and Game Code is amended to read:

1347. The commission may determine and fix the area or areas, the seasons and hours, the bag and possession limit, and the total number that may be taken during any open season for the taking of elk under such rules and regulations as the commission may prescribe from time to time. Only citizens and bona fide residents of the State of California over the age of 16 years and possessing a valid hunting license may obtain a license for the taking of said elk. The fee for said license is ten dollars (\$10), plus an additional application fee of one dollar (\$1). Said application fee must accompany each application. The fees provided herein shall be deposited in the Fish and Game Preservation Fund, and shall be expended in addition to moneys provided in the budget for salaries of the Department of Fish and Game for the expense of enforcing the provisions of this section and the processing of said applications.

Before the commission permits the taking of elk in any area, a public hearing shall be held in the county seat of the county in which the area to be affected by the order lies or, if such area lies in more than one county, the county seat of the county in which the greater portion of such area lies, at which at least one member of the commission shall be in attendance and such officers and employees of the department as are deemed neces-

sary or are requested by interested parties, notice of which has been published at least once and at least thirty (30) days prior to the hearing in a newspaper of general circulation which is printed and published in the county, or one of the counties, in which the area lies. If there is no newspaper of general circulation in any such county, the notice shall be published in such newspaper of general circulation as the commission determines will be most likely to give notice to the inhabitants of the area and such determination by the commission shall be final and conclusive.

The provisions of Section 1275.5 of this code shall apply to the possession of elk meat

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Because of an over-population of elk in the Owens Valley area in Inyo and Mono Counties, serious agricultural crop depredation is occurring. Past history of this elk herd indicates that periodically it builds up to numbers beyond the carrying capacity of its range and it competes with livestock, deer, and agricultural crops. The commission has held two special hunts in the past years to bring the herd down to the carrying capacity of its range, and this type of management is desirable if this herd is to be maintained in the Owens Valley in the future. At present, indications are that this elk herd is seriously in need of reduction during the fall of 1955. It is desirable for the commission to act at an early date and it would be preferable to act under the new law to avoid loss of income to the department.

The notice of noncompliance shall include a description of the lot, the place where and the reasons for which it is held, and shall give notice that said lot is a public nuisance and subject to disposal as provided in this section, unless within a specified time said lot shall have been reconditioned or the deficiency otherwise corrected so as to bring said lot into compliance.

Duties and
liability of
person served

If the person so served is not the sole owner of the lot, or does not have authority as agent for the owner to bring said lot into compliance, it shall be the duty of such person in writing to notify the officer by whom such lot is held of the names and addresses of the owner or owners and all other persons known to him to claim an interest in said lot. Any person so served shall be liable for any loss sustained by such owner or other person whose name and address he has knowingly concealed from such officer.

Any notice required by this section may be served personally or by mail addressed to the person to be served at his last known address.

The enforcing officer, with the written consent of all such persons so served, is hereby authorized to destroy such lot or otherwise to abate the nuisance. If any such person fails or refuses to give such consent, then the enforcing officer shall proceed as provided hereinafter. Destruction

The court may thereupon order that such lot be forthwith destroyed or the nuisance otherwise abated as set forth in said order. Petition
to abate

If the lot so held is not perishable nor subject to rapid deterioration, the enforcing officer shall immediately report the condition of said lot to the director. Within five (5) days from the receipt of such report, the director may file a petition in the superior court in the county where the lot is situated for an order to show cause, returnable in five (5) days, why the lot should not be abated. The owner or person in possession on his own motion within five (5) days from the expiration of the time specified in the notice of noncompliance may file a petition in said court for an order to show cause, returnable in five (5) days, why said lot should not be released to petitioner and any warning tags previously affixed removed therefrom. Final determination by said court in either case shall be within a period of not to exceed twenty (20) days from the date said petition was filed. Order to
show cause

The court may enter judgment ordering that said lot be condemned and destroyed in the manner directed by the court or relabeled, or denatured or otherwise processed, or sold or released upon such conditions as the court in its discretion may impose to insure that the nuisance will be abated. The people of the State of California do enact as follows:

SECTION 1. Section 11 of the Alameda County Flood Control and Water Conservation District Act is amended to read:

Instituting
projects

Sec. 11. The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication once a week for two consecutive weeks prior to said hearing, the last publication of which notice must be at least seven (7) days before said hearing, in a newspaper of general circulation, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of said joint project may be seen by any interested person; said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

Estimates

Notice of
hearing

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated, be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

Hearing

Protest

In all matters in this section referred to, the last equalized assessment roll of the County of Alameda next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Evidence of ownership

Executors, administrators, special administrators and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Authority to sign protest

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do; provided further, that where real property appears to be owned in common or jointly by husband and wife either may sign the protest without the written consent of the other.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be

in writing; and a proxy executed by an officer or officers thereof, attested by its seal, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

Identification The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. The amount of bonded indebtedness outstanding at any time shall not exceed five percent (5%) of the assessed valuation of all taxable property in any zone lying wholly or in part in Pleasanton or Murray Townships.

Legislative
declaration

SEC. 3. The facts constituting the necessity for the addition of the foregoing Section 36 to this act are:

It appears that that portion of the Alameda County Flood Control and Water Conservation District lying in Pleasanton and Murray Townships will remain predominantly agricultural in land use for many years, which creates physical, economic and political problems of a local nature, not existing in the remainder of the district. The majority of the residents and property owners in said townships have demonstrated that under present conditions they will not proceed with the institution of any projects for flood control or water conservation under this act, without such amendment. It is, therefore, essential that Section 36 be added to this act in order that the property owners and residents of Pleasanton and Murray Townships have available for their use provisions in the act whereby they can and will institute a program for solving the flood control and water conservation problems existing in said townships.

The board of supervisors shall annually, not later than the first Monday in September, levy an assessment tax upon the taxable real property in the district sufficient to raise the amount stated in the annual budget, and also an assessment tax sufficient to raise the amount required for payment of principal and interest of bonds of the district. The board of supervisors shall determine the rate of each such assessment tax by deducting 10 percent for anticipated delinquencies from the total assessed value of the taxable real property in the district as it appears on the assessment roll of the county and then dividing the sum to be raised by the remainder of such total assessed value; provided, that if a fraction of a cent

1. In an action arising upon contract for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of said defendants have, been personally served and no answer or demurrer has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may have been granted, the clerk, or the judge, if there be no clerk, upon application of the plaintiff, and proof of such service of summons, must enter the default of the defendant or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against said defendant, or defendants, or against one or more of said defendants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of said default, the court shall hear the application for determination of the attorney fee and render judgment for the same and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against said defendant, or defendants, or against one or more of said defendants.

relief demanded in the complaint; in courts which have no clerk the court must hear the evidence offered by the plaintiff, and must render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment, or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved, by a reference as above provided.

Bonds SEC. 221. If any such bonds are issued or proceedings under Article 7 hereof are conducted in the annexed territory, the territory shall not be subject to taxation for any outstanding bonds issued for one or more of the same purposes. When no such bond proceedings are contemplated in the annexed territory, the district board may, by resolution, if it finds such action to be necessary to provide equality of taxation, determine that the annexed area shall not be subject to taxation for any prior indebtedness. Article 12. Purpose of Act

Purpose SEC. 240. The purpose of this act is to form the Montalvo Municipal Improvement District in order that the area benefited may be provided with various municipal improvements; special facts and circumstances, applicable to the area in which the district lies and not generally, making the accomplishment of this purpose impossible under existing general laws and therefore special legislation is necessary. The special facts are as follows:

(a) The area is without an adequate water supply, storage, and distribution system for public and private purposes.

(b) There is urgent need for the municipal improvements which the district is empowered to construct under this act, but other municipal powers which could be exercised by a city are not required, and would result in more government than the area needs or wants. There are no existing general laws under which sewer and water facilities may be jointly financed by revenue bonds. Therefore, the only way in which the particular needs of the area can be provided is by special act.

(c) The existing district is too limited to perform water or other functions. Their administration under a single governing body will result in economies of administration which cannot be obtained by continued unit functioning.

(d) The area is of strategic importance during times of war or threatened war. Its local airport is strategically located midway between the military and air installations at Oxnard and at Santa Barbara. Influx of military men and their families during times of war or threatened war greatly increases the necessity of providing municipal facilities.

SEC. 2. Article 5.6, consisting of Sections 4806, 4807, 4808, 4809, 4809.1, 4809.2 and 4809.3, is added to Chapter 3, Part 3, Division 5 of said code, to read:

Article 5.6. Bonds for Improvement of a Portion
of a District

Alternative
method
of issuing
bonds

4806. As an alternative method of issuing bonds the district board may, after the approval and adoption of an engineer's report for a portion of the district, if it deems it necessary to incur a bonded indebtedness to obtain funds with which to acquire the property and do the work set forth in the report, by resolution so declare and state: (a) the general objects and purposes for which the proposed debt is to be incurred; provided, however, that such general objectives and purposes shall not include the acquisition or construction of new local street sewers or laterals as distinguished from main trunk, interceptor and outfall sewers; (b) the amount of debt to be incurred; (c) that the district board intends to form an improvement district of that portion of the district which in the opinion of said board will be benefited, the exterior boundaries of which portion are set forth on a map on file with said board, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in the improvement district; (e) that the engineer's report, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement, are on file with the district board and are available for inspection by any person interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the district or in the proposed improvement district, will be heard.

Notice of
hearing

4807. Notice of said hearing shall be given by publishing a copy of the resolution at least once each week for two weeks prior to the time fixed for the hearing in a newspaper having general circulation in the county sanitation district. Such notice shall also be given by posting a copy of said resolution in three public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

Hearing

4808. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the district board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed improvement district, may appear and protest the inclusion of his property within the proposed improvement district and/or present any other matters

material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness.

The district board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement; and provided further, that said board shall exclude from the proposed improvement district any territory which it finds will not be benefited by inclusion therein. If the district board proposes to change the purposes for which the proposed debt is to be incurred, it shall cause appropriate changes to be made in the report before giving notice of such change. The purpose, amount of bonded debt and boundaries shall not be changed by said board except after notice of its intention to do so, given by one insertion in a newspaper having general circulation in said county sanitation district, and by posting in three public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the engineer's report as changed by said board, together with a map showing exterior boundaries as proposed to be changed, are on file with the district board and are available for inspection by any person interested, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, said board shall continue with the hearing. At the hearing any person interested, including any person owning property within the district or the proposed improvement district, may appear and present any matters material to the changes stated in the notice.

At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred (which purpose shall not include the acquisition or construction of new local street sewers or laterals as distinguished from main trunk, interceptor and outfall sewers) the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the district board, which map shall govern for all details as to the extent of the improvement district, and that said portion of the district set forth on said map shall thereupon constitute and be known as "Improvement District No. ---- of ---- (name of county sanitation district)," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within a county sanitation district, all proceedings for the purpose of a bond election shall be limited and shall apply only to the improvement district, and taxes for the payment of said

bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in the improvement district.

Special bond
election

4809. When the board has made its determinations as provided in Section 4808 and if the board deems it necessary to incur the bonded indebtedness, the board shall by resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the name of the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the district board, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not be more than the rate specified in this chapter for bonds of the district, payable at the time specified in this chapter for bonds of the district; (h) the measure to be submitted to the voters; (i) the date of the election; and (j) the election precincts, polling places and election officers.

4809.1. Except as otherwise provided in this article, notice of the election shall be given and the election shall be held and conducted in the same manner as elections for the authorization of bonds of the entire county sanitation district, and if two-thirds of the votes cast are in favor of incurring the bonded indebtedness as proposed, bonds of the district, issued in the name of the district and designated "Bonds of _____ (naming the county sanitation district) for Improvement District No. ____" shall be issued and sold for the amount stated in the resolution calling the election in the same form and manner as bonds of the entire county sanitation district. Each bond of the district for an improvement district and all interest coupons thereof shall state that taxes for the payment thereof shall be derived exclusively from an annual tax upon the real property in the improvement district

Conduct
of election

4809.2. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted. Any action or proceedings, wherein the validity of the formation of the improvement district or of any bonds issued for it or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto,

including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

4809.3. Bonds issued as bonds of the district for an improvement district therein and the interest thereon shall be paid by revenue derived exclusively from an annual tax upon the real property in the improvement district of such county sanitation district, and all the real property within the improvement district of such county sanitation district shall be and remain liable to be taxed for such payments. The board of supervisors of the county shall annually, at the time and in the manner of levying other county taxes, levy and cause to be collected a tax upon the taxable real property in the improvement district, based upon the last equalized assessment roll of the county sufficient to pay the interest on the bonds for that year and such portion of the principal as is to become due before the time for making the next general tax levy. Said bonds and the interest thereon shall not be taxable in this State.

(c) This chapter shall not apply to persons convicted of misdemeanors; to persons who have served time in county jails only; to persons serving a mandatory life parole; to persons committed under death sentences; or to persons in the military service.

When the maximum term includes the fractional part of a year, the period of rehabilitation shall be extended by a proportional part of the 30-day period.

(2) For the purposes of this chapter, crimes with maximum penalties of life imprisonment shall be regarded as carrying a maximum penalty of imprisonment for 50 years.

(3) Where the petitioner is convicted of multiple crimes, the maximum penalty for the purpose of computing the period of rehabilitation shall be determined as follows: (a) If the sentences are made to run concurrently, the greatest maximum penalty prescribed by statute for any of such crimes shall constitute the maximum penalty; (b) if the sentences are made to run consecutively, the sum of the maximum penalties prescribed by statute for all such crimes shall constitute the maximum penalty.

(4) Any person who was discharged after completion of his term or was released on parole before May 13, 1943, is not subject to the periods of rehabilitation set forth in these rules.

Unless and until the period of rehabilitation, as stipulated herein, has passed, the petitioner shall be ineligible to file his petition for a certificate of rehabilitation with the court. Any certificate of rehabilitation which is issued and under which the petitioner has not fulfilled the requirements of this chapter shall be void.

A change of residence does not interrupt the period of rehabilitation prescribed by this section if the second notice of intention required by Section 4852.02 of this code is filed.

SECTION 1. Section 5439 of the Public Resources Code is amended to read:

5439. The trustees may erect one or more dams across a stream or river for the purpose of constructing a swimming pool in the district, may maintain, improve, and keep in a sanitary condition all community parks, community beaches, community recreational grounds, and community buildings within such districts, including the construction, maintenance, and operation of swimming pools and any other recreation facilities, and any other amusement facilities on any of such lands and may also contract for a system of improvements or works for sewage disposal, and drainage, garbage disposal, fire protection, roads, bridges, road repair, bridge repair, trails, lights and playgrounds, and may lease or rent lands or property for recreational purposes, and they may make proper regulations for the management and operation of the district, including regulations binding upon all persons, with the object of effectuating the purposes of the district and, also, in connection with the use of the facilities of the district.

The trustees may expend funds of the district for advertising in connection with the recreation and amusement facilities of the district in such amounts as they deem necessary to carry out the purposes of the district.

The trustees shall have the right and power to acquire by condemnation, gift, purchase or otherwise all lands, or use thereof or interest therein, and any other property or rights

In case of condemnation proceedings the board shall proceed in the name of the district under the provisions of Section 14 of Article I, as amended, of the Constitution of the State of California, and Title 7, Part 3, of the Code of Civil Procedure of California, and all pleadings, proceedings and process in said title provided shall be applicable to the condemnation proceeding hereunder.

CHAPTER 713

An act to amend Section 9906 of the Government Code, relating to regulation of legislative advocates, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 24, 1955. Filed with
Secretary of State May 25, 1955.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 9906 of the Government Code is amended to read:

9906. (a) Any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation by the Legislature of the State of California or the approval or veto of any legislation by the Governor of the State of California shall, before doing anything in furtherance of such object, register with the Clerk of the Assembly and the Secretary of the Senate and shall give to those officers in writing and under oath, his name and business address, the name and address of the person by whom he is employed, and in whose interest he appears or works, the duration of such employment, how much he is paid and is to receive, by whom he is paid or is to be paid, how much he is to be paid for expenses, and what expenses are to be included. He shall also, at the time of registering, submit to the clerk and the secretary a written authorization from each person by whom he is employed to act in furtherance of such object. Such person shall again register at each succeeding general session of the Legislature and again submit at that time the information and authorization required by this subdivision (a), unless he at that time is no longer engaged for pay or other consideration for the purposes hereinabove specified.

Registration

Information

(b) Each such person so registering shall, between the first and fifteenth day of each calendar month, so long as his activity continues, file with the clerk and secretary a detailed report under oath of all money received and each expenditure of twenty-five dollars (\$25) or more during the preceding calendar month in carrying on his work; to whom paid; for what

purposes; the total of all expenditures during the preceding calendar month; and the names of any papers, periodicals, magazines, or other publications in which he has caused to be published any articles or editorials; and the proposed legislation he is employed to support or oppose. The provisions of this section shall not apply to any person who merely appears before a committee of the Legislature of the State of California in support of or opposition to legislation; nor to any public official acting in his official capacity; nor in the case of any newspaper or other regularly published periodical (including any individual who owns, publishes, or is employed by any such newspaper or periodical) which in the ordinary course of business publishes news items, editorials, or other comments, or paid advertisements, which directly or indirectly urge the passage or defeat of legislation, if such newspaper, periodical, or individual, engages in no further or other activities in connection with the passage or defeat of such legislation, other than to appear before a committee of the Legislature of the State of California in support of or in opposition to such legislation; nor to a person when representing a bona fide church solely for the purpose of protecting the public right to practice the doctrines of such church.

Printing of
information
in Journals
of Senate
and Assembly

(c) All information required to be filed under the provisions of this section with the Clerk of the Assembly and the Secretary of the Senate and not previously published shall be compiled by said clerk and secretary, acting jointly, as soon as practicable after the close of the calendar month with respect to which such information is filed and shall be printed in the Journal of the Assembly within the week immediately preceding the constitutional recess, or within the week immediately preceding final adjournment, at each general session, or within the week immediately preceding final adjournment at each Budget Session, whichever is the earliest date after such filing.

Prior
registration

SEC. 2. Any person required, by subdivision (a) of Section 9906, as amended by this act, to register and submit information and authorization, who has registered and submitted such information and authorization at a previous session and has not done so at this 1955 General Session, shall register and submit said information and authorization not later than May 1, 1955.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under existing law persons required to register under Section 9906 are not required to reregister at succeeding legislative sessions or to give notice that they no longer engage in influencing legislation. The result is that there is no way of purging the files and records, which continue to accumulate at such a rate that the expense of printing them as required by law is pro-

hibitive, and the value of such publication is materially reduced. Further, the costs incurred in numerous printings of such information in the Journals of both houses are so disproportionate to any benefit obtained therefrom as to constitute an unjustified expenditure of public funds. In order to prevent the needless expenditure of public funds and to insure that the publication of information on legislative advocates is up to date, accurate and in usable form, it is necessary that this act take effect immediately.
